BALLOT-STUFFERS WYMAN AND STEFFINS PARDONED

Governor Pardee today pardoned Wyman and Steffins, the two ballot-box stuffers of San Francisco, who are now in San Quentin. The reason for granting these commutations was that Rudolph Spreckels, Francis J. Heney and Detective Burns of San Francisco, united in making the request to the Governor that the sentences of these men be commuted in the interest of public justice. In other words, the commutation of the sentences of these men, so Mr. Heney, Mr. Spreckels and Mr. Burns stated, would be a means towards securing evidence and the conviction of some of the grafters and other criminals in San Francisco, and the Governor thought that in this instance the object to be attained was great enough to justify taking this action. The commutations are conditional—that is to say, it is provided in the commutations that if these men are guilty of any other offense in the future which would cause them to be convicted they would be compelled to serve not only their new sentence, but the unexpired portion of their old terms.

LEFT GRACE BROWN TO DIE IN LAKE

Gillette Admits He Did Not Swim to Her Aid.

HERKIMER N Y Nov 30—Chester F Gillette told his story of Grace Brown's death again today this time in response to questions put to him by a prosecutor who picked out every flaw in the accused young man's testimony For three hours District Attorney Ward questioned Gillette and to the surprise of every one in the room Gillette was as cool and confident when he stepped down to go to dinner as he was when he walked into court this morning

Gillette replied in the affirmative when District Attorney Ward asked him if he swam to shore and left Grace Brown to die in the lake

Witness describing the girl's act in leaping into the water to her death said she jumped from the stern of the boat that he shouted for help that no one responded and that he tried to find out how deep the water was there

GILLETTE A SWIMMER

Did you try to reach her?

No

Yet you say you swam in the Pacific ocean?

I did

And you did not swim to this girl's aid

I did not

When she leaped into the water from the boat what did you say you did?

I reached out my hand toward her then the boat tipped over

And you who had swam in the lakes in Washington and in the Pacific Ocean left Grace Brown there without swimming to her aid

I did

GIRL'S PICTURE FOUND

A feature of this morning's proceedings was the discovery of a picture of Hattie Benedict on a roll of films in Gillette's suit case Gillette had sworn that the film was unexposed Miss Benedict is the Cortland girl whom it was first claimed Gillette wanted to marry Miss Benedict swore on the stand that she was not engaged to Gillette

Gillette during the examination stated that his version of the tragedy as narrated to Under Sheriff Klock a few minutes after his arrest to the effect that the affair was an accident and that he had tipped the boat over accidentally while they were picking pond lilies was a lie

Now did your attorneys tell you to tell a different story than the one you told Under Sheriff Klock" asked the district attorney

They did They told me to tell the truth

Gillette asked the district attorney If you struck Grace Brown with that tennis racquet would you come here and tell this jury you did?

I cannot say

DID NOT HATE HER

Did you hate this girl? asked the prosecutor reading from a number of letters Grace Brown had sent the defendant in which she complained of his apparent neglect of her

No I did not hate her answered Gillette

"LOOK AT THE JURY!"

Here Gillette for a second diverted his glance from the jury and Mr Ward shouted

Look at the jury and not at your counsel

Attorneys Mills and Thomas interposed objection to the district attorney's manner toward the witness and the court sustained them holding that Mr Ward had no right to so direct the witness gaze

ASKED ABOUT LETTERS

The district attorney taking up the matter of Gillette having received a letter from Grace Brown in which she referred to his contemplated visit to do

A LITTLE CHILD IS SCALDED BY BOILING SOUP

PRENTISS BERCOVICH, badly burned by the hot soup

Little two-and-a-half year old Prentiss Bercovitch son of Samuel Bercovitch the cigar dealer residing at 761 Harrison street was severely scalded about the face neck breast and arms by boiling soup

As the servant girl was shifting a pot of boiling soup this morning about 9 o'clock the little fellow pulled on her dress causing the hot liquid to pour over his head

The mother tried to relieve sufferings of the screaming youngster by soothing his scalds with a bottle of ink but this seemed to have no effect so she took her little boy to the Receiving hospital where Steward Borchert applied remedies to ease the injured baby

The burns about the face and arms will probably stay with him for life

CONFESSION OF BALLOT STUFFERS TO AID GRAND JURY

Governor Pardee to Give Freedom to Convicts in Return for All Evidence Against Grafters.

SACRAMENTO, Nov 30.—At the request of Attorney Heney, Governor Pardee has pardoned Steffins and Wyman, the ballot-box stuffers, in order that they may testify against Abraham Ruef of San Francisco.

SAN FRANCISCO, Nov. 30.—Steffins and Wyman were sentenced to five years' imprisonment for stuffing the ballot boxes at the local primaries held a short time before the last election of Mayor Schmitz.

Through the result of this primary election Abe Ruef secured control of the County Republican Convention.

Charges were made that Steffins and Wyman who were acting as election officers had stuffed the

HURLED TO DEATH BY RAILWAY TRAIN

H. C. Koeppel Was Crossing Trestle When Struck.

The body found last night in the Oakland estuary near the Seventh-street bridge by Young Earl Scott of 213 East Fourteenth street is that of Henry C Koeppel a San Francisco laborer who has been in the employ of Clayburgh & Co, 53 Clay street, San Francisco

It is thought that Koeppel had started to cross the railroad trestle and was struck by a train and knocked into the water There is a deep gash across the man's face and particles of his skull were found along the trestle

Koeppel was about fifty years of age and a native of Germany, having relatives in that country He had

It was through the columns of THE OAKLAND TRIBUNE that Mrs Minnie Anderson, of 1808 Grove street, learned of the marriage of her daughter, Miss Mamie Elinoria Anderson to James A. Damon, of 512 Sixth street.

The young couple were quietly married last Wednesday, which comes as a pleasant surprise to their many friends

The couple went to the county clerk's office and procured the necessary papers to launch on their sea of matrimony The bridal party entered the Congregational church, and had Rev Brown tie the knot George Damon, brother of the groom, took the part of best man and Miss Cora Sheldon accompanied the bride

After the happy ceremony before the pulpit the quartet went to the College Inn, where a delightful wedding supper was served

The whole thing occurred quietly, and man and wife went to their respective homes jubilant over the affair, but still kept the secret from the folks Upon reading THE TRIBUNE, Mrs Anderson, mother of the bride, saw in the list of marriage licenses issued at the Alameda county courthouse, that of James A Damon, 27, and Mamie Elinoria Anderson, 18, both residents of Oakland. She then learned that Pastor Brown, of the Congregational church, married them This she learned by communicating over the 'phone with the preacher

The newly Mrs Damon told her mother of the affair, and her husband was called. The two then received the blessings and good will from the parents.

Negro Hold-Up Man Follows Victim From Car.

A pretty young woman, a negro highwayman and a policeman played the leading parts in a bold hold-up about 12:45 o'clock this morning at Eighth and Pine streets in West Oakland. Miss Jennie Kennedy was the victim of the robber, who made his escape after a shot had been fired at him by Policeman Kremler

Miss Kennedy had just alighted from a west-bound Eighth street car on her way to the Pullman House at Seventh and Pine streets, where she resides

A burly negro accosted her and snatched her purse from her hands. The purse contained eighty-five cents Miss Kennedy screamed and her out-

A LAZY LIVER

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over-work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver complaint," or torpid liver, by its wonderful control over the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system of poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

Symptoms. If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, bitter or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, or biliousness, no medicine will relieve you more promptly or cure you more permanently than Dr. Pierce's Golden Medical Discovery.

Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver, or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and *stick to its use* until you are vigorous and strong.

Of Golden Seal root, which is one of the prominent ingredients of "Golden Medical Discovery," Dr. Roberts Barthlow, of Jefferson Medical College, says: "Very useful as a stomachic (stomach) tonic and in atonic dyspepsia. Cures gastric (stomach) catarrh and headaches accompanying same."

Dr. Grover Coe, of New York, says: "Hydrastis (Golden Seal root) exercises an especial influence over mucous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver invigorator) it has few equals." Dr. Coe also advises it for affections of the spleen and other abdominal viscera generally, and for scrofulous and glandular diseases, cutaneous eruptions, indigestion, debility, chronic diarrhea, constipation, also in several affections peculiar to women, and in all chronic derangements of the liver, also for chronic inflammation of bladder, for which Dr. Coe says "it is one of the most reliable agents of cure."

Prof. John King, M. D., late of Cincinnati, author of the AMERICAN DISPENSATORY, gives it a prominent place among medicinal agents, reiterates all the foregoing writers have said about it, as does also Prof. John M. Scudder, M. D., late of Cincinnati. Dr. Scudder says: "It stimulates the digestive processes and increases the assimilation of food. By these means *the blood is enriched.* * * * * the consequent improvement on the glandular and nervous systems are natural results." Dr. Scudder further says, "in relation to its general effect upon the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as *the* tonic, useful in all debilitated states * * *."

Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of Golden Seal root: "It is a most superior remedy in catarrhal gastritis (inflammation of the stomach), chronic constipation, general debility, in convalescence from protracted fevers, in prostrating night-sweats. *It is an important remedy in disorders of the womb.*" (This agent, Golden Seal root, is an important ingredient of Dr. Pierce's Favorite Prescription for woman's weaknesses, as well as of the "Golden Medical Discovery.") Dr. Ellingwood continues, "in *all* catarrhal conditions it is useful."

Much more, did space permit, could be quoted from prominent authorities as to the wonderful curative properties possessed by Golden Seal root.

We want to assure the reader that "Golden Medical Discovery" can be relied upon to do all that is claimed for Golden Seal root in the cure of all the various diseases as set forth in the above brief extracts, for its most prominent and important ingredient is Golden Seal root. This agent is, however, strongly reinforced, and its curative action greatly enhanced by the addition, in just the right proportion of Queen's root, Stone root, Black Cherry bark, Bloodroot, Mandrake root and chemically pure glycerine. All of these are happily and harmoniously blended into a most perfect pharmaceutical compound, now favorably known throughout most of the civilized countries of the world. Bear in mind that each and every ingredient entering into the "Discovery" has received the endorsement of the leading medical men of our land, who extol each article named above in the highest terms. What other medicine put up for sale through druggists can show any such *professional* endorsement? For dyspepsia, liver troubles, all chronic catarrhal affections of whatever name or nature, lingering coughs, bronchial, throat and lung affections, the "Discovery" can be relied upon as a sovereign remedy.

A little book of extracts treating of *all* the several ingredients entering into Dr. Pierce's medicines, being extracts from standard medical works, of the different schools of practice will be mailed *free* to any one asking (by postal card or letter), for the same, addressed to Dr. R. V. Pierce, Buffalo, N. Y., and giving the writer's full post-office address *plainly* written.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

CROWDED TRAIN JUMPS TRACK

Wrong Display of Signals Causes Key Route Coaches to Leave Rails.

Crowded with people homeward bound from the race track, the Key route train which left San Pablo avenue at 4.28 o'clock yesterday afternoon became derailed at Hollis street, just east of the trestle, through an incorrect interpretation of signals. Many passengers were severely shaken up and all were given a bad fright, a panic being narrowly averted.

On leaving San Pablo avenue the train, which was an unusually large one owing to the holiday crowd, traveled at a rapid rate. At Hollis street, where several spur tracks jut out, the train swerved from the main track into a siding which had been inadvertently left open. Striking the switch the cars tilted for an instant, in an endeavor to make the turn, then leaped from the track and plunged ahead. When the cars began bumping along the ties the passengers within became panic-stricken, and only the prompt work of the motorman in bringing his train to a stop prevented a stampede and consequent disaster.

The race track crowds were later inconvenienced by the mishap, it being necessary to encircle the derailed train.

FREE PRISONER STRIKE OBJECT

Sonora Road Tied Up Because Mexicans Hold an Engineer.

TUCSON, Ariz., Nov. 30.—The Sonora Railroad, which is the southern extension of the Southern Pacific system from Nogales, Ariz., to Guaymas, State of Sonora, Mexico, is completely tied up as a result of a strike which has as its object the securing of the release of Jesse M. Reitz, now held at Hermosillo on a charge of manslaughter. Reitz was the engineer of a passenger train which killed a Yaqui Indian while the latter was walking on the track near Hermosillo Saturday. Reitz was arrested and at a preliminary hearing Tuesday was held for trial in default of $5000 bail.

By preconcerted arrangement all trains on the road were pulled into Hermosillo yesterday and abandoned by the crews, who refuse to move the trains until Reitz is released. No trainmen can be induced to cross the line from Nogales to help break the strike. American Consul Brickwood of Nogales and Vice Consul Hostetter of Hermosillo are working on the matter. Representations have been made to the authorities at Washington and the City of Mexico.

MANY WALLS BLOWN DOWN

High Winds Create Havoc in Ruined District Across the Bay.

SAN FRANCISCO, Nov. 30.—Blowing almost with the velocity of a hurricane, the north winds prevailing over the city today brought down wall after wall throughout the ruined district. The crashes came unheralded, but up to date no injury to human life has been reported to the police or the hospitals.

The high ruins of a building on Second street near Market toppled over with a roar and for minutes afterward only a drifting cloud of dust marked the place where the walls had stood.

The shell was over 100 feet high and the material was of immense weight but fortunately no one was in the immediate neighborhood when the collapse occurred.

Another burned building on Leidersdorff street fell shortly afterward and the sudden detonation created momentary panic in the commercial section.

Huge chimneys that were the only remaining portion of high buildings, were thrown down by the wind as though they had been straws stuck in the earth.

In many places scaffolding erected around new buildings was momentarily threatened and in some half constructed edifices the laborers were laid off on account of the danger from the gale.

SALOON MAN IS HONEST

D. F. McCarthy Finds an Endorsed Check for $2800 and Seeks the Owner.

If Diogenes with his lamp were in quest of an honest man in Oakland the cashiers of several of the city's banks would refer him to D. F. McCarthy, a saloon-keeper at the Sixteenth-street depot.

McCarthy found a check for $2800 in the rear of his place of business yesterday and holds it awaiting the demand of its endorser, J. M. Lugo.

The check was issued by the Bank of Gilroy and is drawn on the First National Bank of San Francisco. When found it was in a sealed, unaddressed envelope, but a corner of which showed from beneath a fixture of the saloon.

The paper is signed by W. R. Pyle, cashier of the Bank of Gilroy, and appears to have been carried about the owner's, or may be some one else's, possession for several days.

Mr. McCarthy called at several banks in search of the owner, but was unable to find him.

He will retain the check until J. M. Lugo, his identity proven beyond a doubt, makes his appearance.

The town of Witten, near the factory, presents a sad scene of mourning and destruction.

SUPREME COURT WANTS NO PHONETIC SPELLING

WASHINGTON, Nov. 30.—United States Supreme court has taken a significant step to show that it is still a co-ordinate branch of the government and not controlled in the slightest degree by the executive. Public Printer Stillings was notified through the department of justice to continue the old style spelling in the quotations of opinions and decisions of the Supreme Court, the President's simplified order to the contrary notwithstanding.

On Tuesday the matter came up in the court when Solicitor General Hoyt read from a Supreme court opinion in which the word "through" was spelled "thru." Chief Justice Fuller interrupted to ask if Hoyt was reading from an official copy of the opinion. "All but the spelling," replied Hoyt.

"Ah," was Chief Justice Fuller's only comment. Hoyt then remarked that Public Printer Stillings had insisted upon employing the simplified spelling in spite of a protest from Hoyt. Today Stillings discovered that the Supreme court had its own ideas in the matter and that they differed from the President's. Hereafter the Supreme court opinions will be spelled in the good old way.

Willie and the New Probation Dope

Well, about every week now a days I have something come up to worry me. A while ago it was this Dr. Osler business, now it is Mrs. Parsons' new marriage law, which she wants to boust on the country. I am like a lot of others: "I haven't as yet read Mrs Parsons' book," but I am looking for one every day—but I have my own ideas about these things and sometimes I imagine they are working, so here goes for just two months after this thing has been adopted: "Smith meets Jones and says: 'Hello, Jones, how are you; how are you getting on with that pretty blonde, now?' Jones looks at Smith and says: 'Say, old man, don't twit a fellow over a thing like that—we quarrel like cats and dogs and I want to try Mrs. Brown next door, so if you want Mrs. Jones for a couple of years, why its a go.' And Smith says: 'Well, just as soon as I can get rid of Mrs. Smith, I will come over and get your wife. Don't let her out to anybody else, will you? Good day'." Whew, what a doings and what a bunch of old scolders there would be on the market, and what a time with boys who come here after clothes. Mrs. Smith would buy Mrs. Jones' boy a suit and Mrs. Jones would pay for a pair of pants for Mrs. Brown's boy and Mrs. Jackson would want an overcoat to give to Mrs. Roberts' son, and Mrs Roberts would get a new suit for the grandson of Mrs. Williams, and Mr. Heeseman would be up in Napa counting the flies on the ceiling, and Dave McLaughlin would be telling stories about how a family over in East Oakland got all mixed up and I would be married every sixty days, when I got old enough. Nothing doing with Mrs. Parsons.

ONLY OLD PEOPLE IN THI SVILLAGE

NEW YORK Nov 30—Pikerville a hamlet nestling among the foothills of the Litchfield mountains about twenty five miles from Waterbury is typical of the depopulated and semi abandoned villages which abound in Connecticut and throughout New England A tumbledown hotel building, a few farms and a population mainly of elderly people are all that remain of what was once a prosperous community

Fifty years ago Pikerville had more than 300 inhabitants and seemed destined to a steady growth Now less than fifty people live there and among them there is hardly a child or a young person A few weeks ago Orris Gross one of the oldest residents died He was born in Plymouth in 1811 and went to Pikerville when a young man

At the funeral service there was a notable gathering of old people all of whom have lived in Pikerville for over a half century The two were Jesse Barney 83 years old Orrin Kimberly and August Griggs each 80 Hiram Merrill 77 John Osborn 76 Sylvester Tribone 76 besides a number of women whose ages averaged around 70

Merrill has lived in Pikerville all his life I can remember said he yesterday when this town was prosperous I was settling 100 acres also both Elias Scott Butler was a big man here in those days I have been told His eldest son was Anthony Butler who was a best of the whole Butler family

It was he who built the factory on the main road and it was the industry of the wooden ware established there that caused Pikerville to grow Anthony Baker died a rich man and left most of his money to his son Orrin Horace died out last long after that and it has been abandoned nearly fifty years

Somehow we could not get the young folks to stay in Pikerville As soon as they grew up they would leave town and now there is but one young person here I don't think that Pikerville will ever be rid while we cling to the old

NEW YORK LASS IS BOSS OF PARIS MESSENGERS

Girl Establishes an Effete System of Messenger Service in the French Capital.

NEW YORK Nov 29—It is through a New York girl that a new messenger service has been established in Paris Miss D H Andrews granddaughter of Loring Andrews realizing the loss of time and the tax on patience in the lack of any sort of messenger service set about to find a remedy

After organizing a company composed of prominent financiers of Paris she received a concession on October 29 1906 from the Minister of Commerce Industries Post and Telegraph of France By this concession the societe of 'Les Petits Messagers,' obtained the rights to utilize the city canalization and existing conditions for their lines throughout Paris

Miss Andrews states she could not see the necessity of being interviewed on this subject As she expressed it Messenger service is positively essential to Paris and simply had to be brought about

She has a convincing personality however that makes one feel that if she said it just that way to the French minister he was quite willing to take her word for it She is very good to look at too and in addition she is a logical thinker an efficient doer and withal a woman who never lets her dreams interfere with the realities as presented She was born in Nice went to school in Oyster Bay and New York and finished her school days in Paris For four years she led the prescribed society girl life

'Americans abroad not only demand conveniences for themselves but they create a desire for them in the inhabitants said Miss Andrews 'I assure you but little could have been done without the assistance of M Desouches director of the Entrepot d'Ivey the Paris Telephone company and the Mors Electric company The city government by the way has made the call boxes and fixtures and placed the wires

Our boys will be recruited upon the recommendation of the government from among the sons of the employes of the Post and Telegraph department They will use bicycles which we furnish and which they will pay for in instalments until they own them This will insure no overcharge from trams Hotels and cafes rent boys from us for $5 a week, the day's work being limited to eight hours"

WIFE LEFT HIM WHEN HAIR FAILED

CHICAGO Nov 30—A bald head has been the means of breaking up a home and was made the basis of a plea for divorce in Judge Patton's court yesterday when George I Meeker asked for a dissolution of the marital bonds between him and Minnie Meeker The story as told by Meeker caused some merriment in the courtroom where several bald headed men were waiting to be called as witnesses in other cases The technical charge upon which a decree is asked is that of desertion but Meeker attributed the trouble between him and the defendant to his lack of hair He told the court his wife left him in 1901

Why did she leave you? asked Judge Patton Another man in the case?

Nope responded Meeker placing his hand on his bald head This was the cause of our trouble You see a year or so before my wife deserted me my hair began to fall out and finally I was almost completely bald Well Minnie wanted me to buy a wig but I objected to wearing one and said so

And you refused to buy the wig? asked the court

Yes that was it and my wife then began nagging at me until we quarreled about it She never was the same after that and one day she quietly slipped out of our home and has never returned to me

The court announced that he would take the case under advisement

Meeker and his wife were married at Jersey City May 19 1897 He is an actor

FRENCH ARTILLERY THE BEST.

After an elaborate review of the work of the French artillery during the recent maneuvers, the military correspondent reaches the conclusion Everything taken together, there can be no doubt that the French field artillery is the best in the world, and that it is so thoroughly prepared for war by the practical science of its officers the skill of the men and the excellence of its material that it must long retain the position of pre-eminence to which it is justly entitled.

DEATH IN BIG WIND STORM

Wall is Blown Down in San Francisco and Boy is Killed.

SAN FRANCISCO, Nov. 30—Eddie Cuneo, aged eleven, was killed, and his companion, Joseph Castro, aged ten, was badly injured this afternoon by falling bricks which were blown from the top of one of the ruined walls of the Palace hotel The bricks fell on the Market street side, and immediately after the accident the police stretched ropes across the street for the purpose of preventing further accidents

LEFT GIRL TO DIE IN WATER

Alleged Murderer Tells His Story on the Witness Stand

(Continued from Page One)

Ruyter previous to their departure for the Adirondacks in July the witness denied he was ashamed or feared to be seen with the girl there

Didn't you want the girl to go to Hamilton with you?

I don't know I believe she wanted to go to Hamilton

Did you know anyone in Hamilton?

I did not

She had relatives there had she not?

I believe she had

VISIT TO HAMILTON.

"Then you wanted her to meet you in Hamilton where she was known but where you were not known, and started from there to the Adirondacks instead of for de Ruyter

I cannot state

When did you first know she was to become a mother?

I do not remember

'Was it in April when she left Cortland for South Otselic that you first knew it

I cannot state

Gillette said his attitude toward the girl had not changed when her condition became known to him

STILL LOVED GIRL.

'Did you still love her?' asked the district attorney

'I did answered Gillette with a sharp nod of the head

Gillette stated that when he departed from Cortland with Grace Brown intending not to return, he left everything in his room undisturbed and said nothing to his landlady about not coming back

The district attorney asked him if he had planned to use the girl's own money in making away with her inasmuch as his own purse was rather depleted

Gillette answered

No

HAD LITTLE MONEY

Asked by the district attorney if when he rented the boat at Big Moose lake and went out on the lake with Grace Brown he understood his financial condition would not permit hiring a boat from noon until night Gillette answered he did, but did not care about the cost

Gillette was shown the films that he took on his trip to Bear mountain and through the woods

Gillette you swore the other day for your counsel that these films I hold here were never exposed didn't you?'

Yes

'And then after you had sworn to that you told your counsel not to examine you any further on that point didn't you'

WEDS FIVE WOMEN COURTS THE SIXTH

CLEVELAND Nov 30—Is a man crazy when he marries five women and courts a sixth? This question comes up in the Criminal Court Monday in the case of George T Field The case was postponed today that doctors may examine into his mental condition Field is out on bail

This is the alleged marital record of Field

In 1896 married Miss Madden of Cleveland They had two children

His second marriage it is alleged, was to Alice Brott also of Cleveland For this bigamy he served one year in the penitentiary

Wife No 2 was May Madigen of Cleveland whom he married May 7, 1907 it is said She discovered that he had another wife and left him in March A month later he married Miss Ethel Burchell of Detroit He left her and is said to have married another Detroit woman

Field is held for bigamy

SALT IS USED TO QUELL FIRE

A novel means was used last night in fighting a fire in the Hammam baths at Ninth and Broadway Pound after pound of salt was used by the firemen in extinguishing one of the most spectacular and yet one of the smallest fires that has occurred here A defective flue communicating with the Hammam baths under the Deiger block caught on fire and the display of pyrotechnics that followed attracted hundreds of spectators Chief Ball and his men responded promptly A hurry call was immediately sent in for salt and the surrounding restaurants were quick to supply the novel extinguisher Fully 2000 persons gathered in the vicinity to watch the work of the firemen The loss was nominal

READY WITH THE LANGUAGE.

Some time ago the colonel was making a speech at a club banquet The colonel had reached one of those places in his flight where the birds were singing and all the world was beautiful For some unaccountable reason he hesitated just a moment, the slightest sort of hesitation, but it was sufficiently long for Brady, who chimed out melodiously

INCREASE IN POLICE FINES

November Collections $2840 as Against $460 One Year Ago.

If Oakland's growth can be measured by the receipts of the police courts, then it has been phenomenal During this month $2840 has been collected in fines and forfeitures in department one of the police court. In November 1905 the receipts were only $460, making the increase about sixfold The increased amount also proves the prosperity abounding here, for, as a rule, when a country is dull but few fines are paid and little bail is deposited

10 PRISONERS MAKE ESCAPE

Saw Bars in Long Island Prison and Have Not Been Captured

most desperate prisoners in the county jail at Long Island City escaped from that institution and are still at large

The first four prisoners to get out sawed the bars of their cells and of the windows opening into the corridor of the jail at 2 30 a m Once in the yard they had only to climb a fence and they were free

The absence of the men and the sawing of the bars were unnoticed when the keepers opened the cell floors and allowed the other prisoners in the corridor at 6 o'clock this morning Six of the prisoners immediately crawled through the hole in the window.

VOTE FOR YOUR FRIENDS TRIBUNE POPULARITY CONTEST.

GREAT CROWDS ATTEND OPENING

San Pablo Park the Scene of Scores of Investors.

The Mason-McDuffie Company of Berkeley has long since established a reputation as successful land promoters and home builders But the climax was attained yesterday at San Pablo Park, when that large new subdivision was placed at the disposal of the public and was entirely sold out long before the eager prospective buyers were all able to secure one of these choice residence lots The most intense interest was created, as will be seen when it is known that people stood in line for hours in expectation of securing one of these choice lots

Mason-McDuffie have always represented the facts in the matter, when placing residence plats on the market, and in no tract placed has the buyer been in a position where he could not sell his property at a material increase Notably among the choice subdivisions successfully placed are the Claremont Tract, Fairview Tract, Northlands and San Pablo Tract. Oakland buyers reported to the TRIBUNE today that had the tract been four times the size, every lot would have been secured

One strong feature to the subdivisions placed by this company is that they always lay out handsome parks, circular drives and plan large lots

FRIENDS OF UNION MEN ARE CASTING BALLOTS

Contest for Tribune's Prizes Is Growing Interesting in Many Parts of City

The generous offer made by THE TRIBUNE to the popular has awakened an interest in the hearts of contestants and their friends alike. All see here an opportunity to secure an appropriate prize entirely free. With such opportunities within their grasp it is not surprising that the ambitious and determined have responded so nobly. The public see here an opportunity to assist some well-deserving and popular candidate

It remains, though, for the contestants and their friends to make as many new friends as possible that all working together will win the prize for their favorite.

Interest will become more intense as the days pass by and the candidates send in ballots to change their position to one a little above. Many candidates made good records, the increased totals being the best evidence of this fact.

WORD TO THE CANDIDATES.

You have been nominated by one of your friends as one of the candidates in THE TRIBUNE Popularity Prize Contest in which we give away over $6000 in prizes to be divided among the several districts, the one in each district having the most votes at the close of the contest to win a prize It has been our aim to choose generous and appropriate gifts. We think we have succeeded.

You may understand what our reason is in distributing these prizes throughout the county or in what way we are reimbursed for this great outlay. Our object is this To excite interest among all classes of people by this contest that THE TRIBUNE, its prizes and winners will be one of the topics of conversation for months enough so that many persons not now taking THE TRIBUNE will be induced to subscribe to obtain votes, we feel satisfied that nearly all will continue on as readers of THE TRIBUNE after the contest is over.

CHANCES ARE EQUAL.

All have an equal chance and the roll of honor will be composed of those who improved their opportunities to the utmost

Are you not acquainted with many readers of THE TRIBUNE who will save votes for you or some one who will send in their subscriptions in your favor? It takes a little hustle and energy but the one who sent in your name believes you to have these qualities. Show your friends by making an effort to win that their confidence in you has not been misplaced.

The office is ready and willing help you all in its power for our interest in this contest is mutual

Each day we publish your standing, with a few notes of information as to how the contest is progressing but we would be pleased to have you call at THE TRIBUNE office as soon as possible that we may explain further.

Wishing you success, very truly yours

SUFFERED FROM ATAXIA

Was Treated for Sciatic Rheumatism.

Finally Cured by Dr. Williams' Pink Pills.

Wife of a Government Employe Makes a Statement of Interest to Every Nervous Sufferer.

Mrs. S C. Wellock, of 114 Cleveland avenue, Everett, Mass., is the wife of an employee in the government works at Chelsea. Mr. Wellock is a veteran of the civil war, having served in Co. C., First Massachusetts Infantry, and both are well known in their home town. This is important because Mrs. Wellock has been cured by a popular remedy of a disease until recently regarded as incurable and her statement will bear the most searching investigation. The permanency of her cure is best attested by the fact that she has felt no return of the symptoms for over a year. She says:

"I had been troubled with nervousness for the last ten years and about two years ago had an attack of what was pronounced sciatic rheumatism. I noticed that the trouble kept growing on me and I began to take medicine for it. It was then I learned that I was suffering from locomotor ataxia. I had terrible tremblings in my right leg which would get rigid and when this happened in the street I had to stand still until it passed away to keep from falling. My right arm felt as if a thousand needles were pricking it. The sheet touching my knee in bed would nearly cause me to scream out with pain and both knees were so weak I could hardly stand.

"I had to use a cane and be helped about by my son. Then the pain began to settle in the calves of my legs and the muscles became numb and quivered constantly. The cords under my knees seemed to be drawn up tight and the terrible shooting pains in my legs would nearly drive me insane. My toes became numb and at times would prickle as if needles were being thrust into them. My eyes became dull and black spots floated before them. My heart was very weak. The doctor told me I had to be very careful or I would bring on a stroke and it might cause death. Besides the nervous trouble, I suffered from acute indigestion and inflammation of the stomach.

"My attention was called to Dr. Williams' Pink Pills by a pamphlet which was left at my house in which were given a number of cases of nervous diseases, including locomotor ataxia, cured by these pills I bought several boxes right away and very soon felt relief I was so pleased that I kept on taking them until they cured me entirely, and I have had no symptoms of the trouble for over a year"

Nervous diseases may be traced directly to the blood for their cause. This is why Dr Williams' Pink Pills have been so successful in nervous disorders such as dizziness, sick headaches, nervousness, paralysis and locomotor ataxia These diseases have been permanently cured by treatment through the blood when ordinary remedies had failed. Dr Williams' Pink Pills build up the nervous system by making new blood and also cure effectively such blood diseases as rheumatism, after-effects of the grip and fevers, and anaemia.

A booklet, entitled "Nervous Disorders," will be sent free to any one interested upon request.

Dr. Williams' Pink Pills are for sale by all druggists or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for $2 50, by the Dr. Williams Medicine Company, Schenectady, N. Y

COMPANY DROPS PORT OF CALL

Salina Cruz, Mex., Will Be Omitted From Itinerary of Pacific Mail.

MEXICO CITY, Nov. 30.—The Pacific Mail Steamship Company has decided to omit Salina Cruz as a port of call. This statement was made yesterday by the Department of Communication here which lately received a written protest from the Pacific Mail Steamship Company, to the effect that it was not afforded proper docking facilities at the port of Salina Cruz. The department did not see fit to take action in the matter which resulted in the action taken by the Pacific Mail Company.

The American-Hawaiian Company will commence running boats on January 1 and act in conjunction with the Tehuantepec Railroad which will be opened to the traffic of the world early in the month of January. The boats of the new line will touch at Honolulu, San Francisco and Salina Cruz.

HAVE YOU CATARRH?

Breathe Hyomei and Get Relief and Cure. Sold Anywhere.

If you have catarrh, with offensive breath, burning pains in the throat, coughing, raising of mucous difficulty in breathing, sneezing huskiness, discharge from the nose, tickling and dropping at the back of the throat, especially at night, coughing, spasms, etc, begin the use of Hyomei at once

Its healing medication will give relief in a few days and its continued use will completely drive all catarrhal germs from the system

Hyomei contains Nature s healing oils and balsams, the garm-killing properties of the pine forests, and goes with the air you breathe to the most remote cells of the respiratory organs, searching out and killing all catarrhal germs and soothing and healing any irritation there may be in the mucous membrane It is easy and pleasant to use Hyomei pleasanter than most of the stomach dosing, as its healing air is breathed through a neat pocket inhaler, which can be carried in the purse or vest pocket and carries medication to just the spot where relief is needed

The complete Hyomei outfit costs but $1 00 extra bottles if needed, 50 cents We do not want anyone s money unless Hyomei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction

All druggists should be able to supply you with Hyomei or we will send it by mail on receipt of price, and every package is sold with the distinct understanding that it costs nothing unless it cures Write us today for a symptom blank which we will send you free together with treatise on Catarrh and how to cure it When you fill in and return to us the symptom blank our consulting physician will give your case the best care and attention, and write you a letter of advice without charge The R T Booth Company, Buffalo N Y

A Winter Display of Ladies' Coats

This is the long coat season---no one doubts that. And ours is The Long Coat display---no one doubts that either, after they have seen it.

You are invited to see it, you are urged, for your own satisfaction, to see it. The popular Tourist Coat, in all its variety of styles, grades and colors, is the best of outdoor companions. Built fashionably, they gratify the eye; made of warm material they defy the coldest blast, and reasonably priced, they come within the purview of the moderate purse.

Materials are mannish mixtures, bold and medium plaids, checks and covert cloth. The colors embrace everything that's stylish.

$12.50, $16.50, $18.50, $20.00, $22.50, and to $45.00

BROADCLOTH COATS for evening wear stylishly fashioned; black, white, tan and blue; trimmed with velvet and fancy braid—$17.50, $22.50 and to $50.00.

Evening Costumes

Effective, white net party dresses, daintily trimmed with plaits, ruffles and lace—$15.00, $16.50, $20.00 and to $42.50.

Pretty party dresses of chiffon cloth and messalines; trimmed with fancy lace and hand embroidered; in light blue, white, black and pink—$35.00, $42.50 and to $85.00.

Voile Dress Skirts

The newest addition to the Dress Skirt display—and a very acceptable one—is a beautiful lot of Voile skirts with silk drops; handsomely trimmed with silk taffeta bands and hand embroidery—$16.50, $17.50, $20 00 and to $27.50.

Misses' Winter Suits

Just as stylish as the adult suits, but specially adapted for those hard-fitting ages—14 to 18

Pretty mixtures in box jacket suits, Prince Chaps, Etons and blouses, trimmed and designed to give individuality—$12.00, $13 50, $15.00 and to $32.50

Misses' Coats

In these are included all sizes, from 12 to 18 years; cheviots, broadcloths, coverts, checks, plaids, herring bone mixtures and coverts; the very clever "Piccadilly" coats that never lose their popularity are also in this section—$6.50, $7.50, $8.50 and to $16.50.

OUR PERFECT DELIVERY SYSTEM

All that humans can do to guarantee prompt and safe delivery of parcels has been done by us Since our new system was launched there has hardly been a complaint, and from now on we feel so confident, that we don't expect a single "kick."

Our delivery system will be severely tested during the next month, but we have no misgivings. Oakland is growing fast, but we are prepared for even a much greater growth.

Whoever Saw Such Glasses Before?

The Kryptok is the adaptation of scientific principles to practical utilities—to the production of better glasses

Scientists tell you that different kinds of lenses possess different qualities and that when combined to reinforce one another the combination has an optical value vastly greater than that of either lens separately

Such is the Kryptok. Each pair is composed of six separate lenses invisibly combined They not only give clear reading and distinct vision in the one glass, but their construction helps the eyes greatly

Carelessness of Railroad Employes.

Even railway presidents are not safe from accident on their own roads. The fate of Samuel Spencer, president of the Southern Railway, one of the great systems of the United States, is a tragic illustration of this fact. His car, attached to the rear of one fast train, was crashed into by another fast train and all its occupants killed or wounded. A great railroad magnate, his guests, his personal staff and his servants, not passengers, were the victims of the disaster—a convincing proof that railway managers are not usually to blame for collisions and train wrecks.

The accident which cost Mr. Spencer his life was due solely to carelessness on the part of employes. The rear train was notified by a telegraph operator that the track was clear between certain points when, in fact, the front train had not passed the last point given. Some mischance caused a stoppage just before that point was reached, and the rear train almost immediately hurled itself into the private car of the president of the road. The telegraphic advices of the conductor of the second train indicated to him that the forward train was several miles ahead running on fifteen minutes' advance time.

Had only passengers and trainmen been injured in this wreck the press would probably have teemed with the usual strictures on the indifference to human life manifested by railroad managers. But it is so apparent that the disaster was due solely to the carelessness of an employe, the homilies ordinarily provoked by such tragic occurrences are omitted. A multi-millionaire president of a vast railroad system has forfeited his life by trusting to the fidelity of his employes. If there is any moral in this, it is that employes in the train dispatching department should be picked and well-paid men. It is obvious, however, that no mechanical device or human precaution can guard against negligence. Despite all that can be done toward perfecting appliances and signals and system in operating trains, the final analysis leaves railway passengers at the mercy of railroad employes. In the end human watchfulness, skill and fidelity must be relied on.

Contrary to a popular impression, there is nothing railroad managers so dread and take such care to avoid as passenger train wrecks. Accidents of this character not only reflect on the capacity of the operating department, but they inflict heavy financial loss on the railroads. In addition to the destruction of valuable equipment there are heavy bills of damages to pay and temporary loss of traffic due to the timidity and apprehension of travelers. Moreover, every wreck accompanied by considerable loss of life brings out unfavorable press comment and excites popular feeling, already prejudiced against the railroad interests, against the men who control and manage railways. In this instance, however, there is a melancholy illustration of the futility of precaution when those charged with its observance fail in their duty. If a watchman shows the wrong signal or a brakeman sets the wrong switch, there are horrible consequences. If an operator sends an erroneous instruction or an engineer disobeys orders there is likely to be a frightful calamity. The railroad company must bear the blame and suffer the loss, though it is not responsible for the calamity which it has done all in its power to avert. Therefore the railroads are justified in demanding that their employes shall be sober, steady men, physically and mentally sound, and fully alive to their responsibilities.

The ovation given Caruso, the singer, on his first appearance in the Metropolitan Opera house after being fined for offering a disgusting insult to a woman in the Central Park zoo, counts for little. Caruso's friends made it a point to attend, and the management, no doubt, did its part in seeing that there was a sympathetic audience present. Manager Conried, who displayed a cynical contempt for the moral phase of the case, made himself Caruso's special champion, for the reason that Caruso is the first tenor in the world and is under special engagement to the Conried company. The contention of Judge Dittenhoefer, the eminent counsel employed by Conried to defend Caruso, that there was a conspiracy to ruin and disgrace the singer has nothing to support it. Neither the woman Caruso is accused of insulting nor the policeman who made the arrest was aware of Caruso's identity and could have had no motive in bringing a false accusation against the singer. But for his marvelous voice Caruso would have been promptly sent to jail as an ordinary blackguard, but it appears that the wealthy patrons of the Metropolitan Opera house must have their musical tastes gratified even at the sacrifice of public decency. Judge Dittenhoefer's manner of conducting the defense, as well as the character of the plea he set up, was not edifying nor wholly creditable to the profession of which he is ranked as a distinguished member.

Southern Railroad Operators.

Samuel Spencer, who lost his life in a railway collision near Lynchburg, Va., yesterday, was a notable figure among the group of Southern men who have achieved fortune and position in the financial world in recent times, chiefly in connection with railroad building and speculation. Thomas F. Ryan is perhaps the wealthiest and most prominent figure in the group, but Spencer, who has been intimately associated with him for many years, was a good second. Ryan went to New York from Virginia, where he was born of Irish parents, his father having been a Confederate soldier, a poor man, and has become one of the financial kings of the metropolis. Spencer, a native of Georgia, came out of the University of Virginia with hardly money enough to pay a month's board. His only capital, aside from a good strain of blood and a good education, was energy, perseverance and a determination to win. He rose from being rodman in the engineer corps of an obscure Southern railroad to presidency of the greatest railway system in the South—a system he had done perhaps more than any other man to consolidate and build up. He amassed a fortune of millions and ranked as one of the most capable railroad managers in the United States. He was connected with all the railroad enterprises of J. Pierpont Morgan and was also a business associate of James J. Hill. In the work of piecing together a great number of non-paying broken-down Southern railroads into one great system, Spencer had an able coadjutor in Patrick Calhoun, now president of the United Railroads. The financial backing was furnished by Morgan and the Drexels of Philadelphia. Others of the Southern railroad set are President Smith of the New York Central, B. F. Yoakem of the Rock Island-Frisco system, and Kruttschnitt of the Harriman system. Colonel Epes Randolph, also of the Harriman system, is another. President Harahan of the Illinois Central is not a native of the South, but he began his railroad career there and worked up on Southern lines. Unlike Spencer, Smith, Yoakem, Kruttschnitt and Randolph, however, he is not a college-bred man.

When the wholesalers announced a few days ago that they had advanced the price of coal $3 per ton they stated that there was no shortage in the supply. Now they declare that a coal famine is imminent. Is this an afterthought to reconcile consumers to the big advance in price?

A LOVER OF MOUNT DIABLO.

EDITOR TRIBUNE: Repeated and protracted absences from the city on earthquake investigations, both with Doctor Omori and independently, have prevented earlier notice of a singularly unjust article appearing in your issue of September 10.

For over forty-two years Mount Diablo has been my objective point on as many most heartily enjoyed pedestrinations thither. Have trodden its ridges and ravines by day and by night, enjoyed sunsets and sunrises from its summits and its slopes, slept upon both, traversed all roads thither and back and tramped its trails up and down in winter as well as in summer.

Your "Teamster" correspondent, whose letter you honored with the place of an editorial, as if giving fullest indorsement to its contents, would seem to indicate the writer had been most singularly unfortunate in preceding circumstances, associated with disorderly companions, possibly in hilarious condition, or encountered most unusual obstacles.

In all my forty trips, sometimes accompanied by as many as sixteen of my high school pupils, I have never yet had to "crowd in as a thief" or "to bribe the owner." We have slept on the summit, on the slopes and at the foot, not only with the full knowledge and free consent, but with the hearty welcome and with the generous provision of food and drink "without money and without price" by the neighboring ranchmen or tenants. I will not at present say that your correspondent stated what he knew an untruth but I must say most squarely that no one with whom I have ever traversed any of the approaches to the monarch mountain "crowded in as a thief" or "bought in by a bribe." They were not of that kind. Was "Teamster" of that sort? One wonders.

But I am sorry to have to testify that I have seen the summit station windows smashed in, two days before, by university students "on a lark," and that, too, when they had just received free water from the keeper, who had to pack it up hill three-quarters of a mile, without a horse; cows shot by marauding deer hunters and left to rot in running streams feeding the drinking places; horses and other stock wounded, sometimes blinded, by reckless quail hunting "sportsmen" confident of immunity by reason of their distance from legal officers, gates left open, bars down, fences broken and even used for camp-fires; fruit picked and plundered and have known protesting women and children contemptuously jeered and insultingly hooted by these hoodlum-acting "lovers of nature's grandeurs and beauties," forsooth, as they passed by with their trespass and actual stealing because they knew the men of the place were away. These cowards did not steal in as thieves—they forced their way as robbers in the known absence of owners or keepers who would have summarily given them their just deserts.

Had "Teamster" been the owner or the sufferer, as a tenant, in any of these cases, you might have had a red-hot letter of quite another tenor from him. By the way, or "on the side," one can hardly help asking if he, or any of his friends, have any pecuniary or other interest in the prospective Claremont Hotel which he wishes should "have a drawing card?"

The present writer thoroughly knows—and has for many years known—the persons and the places whereof he affirms. The places are not public property. Were "Teamster" an owner, with the provocations the real owners have, he would quickly become as rigidly exclusive as any of whom he so unjustly complains. The property of lawful owners and tenants should be secured from trespass. All good citizens, when sober, help to keep it so. They will help the owners to exclude lawless trampers, reckless hunters and criminal campers who seldom even ask permission or go thither without full supplies of whisky and scant remains of decency or any due regard for property rights in pasturage and woodlands so often burned over by incendiary cigarettes, cigars, matches, burning wads and neglected camp-fires.

For many years the writer has advocated an electric road to Mount Diablo, as he did the steam road to Mt. Tamalpais. The latter has come—the other will come in due time. Meanwhile he stands ever ready to co-operate, most cordially, with owners, nature lovers, artists, writers, camerians, automobilists, wheelmen and, pedestrians, like himself, who respect human and property rights, in providing and maintaining a smooth, well-graded road, renewing the old stage road thither from Hayward through Danville. That road enabled us to leave the city with our ladies and children, dine on the summit of Mt. Diablo by noon, and regain our city homes in time for the usual dinner but slightly delayed. We could restore the old road at comparatively small cost. I traverse it occasionally on foot to "keep posted." It would require careful patrolmen or keepers. Charge toll enough to pay for these as well as repairs. No purchase of Mt. Diablo property at or near the summit is any more necessary than on Mt. Tamalpais. Not one tourist, excursionist or ordinary visitor in a hundred cares for anything below the summit whence alone one commands the inspiring outlooks. Hunters and campers belong in another category and must have necessary restrictions or provisions accordingly.

A good toll road, to begin with, would open the magnificent mountain top, with its most feasible approaches, to all decent, law-abiding, appreciative tourists or excursionists. Exclude all others more rigidly than ever. The toll road would prepare the way in due time for the electric road which manifest destiny is even now preparing. Meantime it would benefit property-owners and ranch tenants as well. Let us have it. The writer will gladly contribute his mite.

A TRAMP OF THE FORTY-SECOND DEGREE.

S.S.S. PURIFIES THE BLOOD

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs, impurities and poisons. As long as it remains uncontaminated we are fortified against disease and health is assured; but any humor or impurity acts injuriously on the system and affects the general health, or culminates in some special blood disease. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid, or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood diseases that continue to grow worse as long as the impurity or poison remains in the circulation. Some persons are born with an hereditary taint in the blood and we see the effect manifested in various ways. The skin has a pallid, waxy appearance, the eyes are weak, glands in the neck often enlarged and usually the body is not fully developed or strong, because it has always been fed on weak, impure blood. In all blood troubles S. S. S. has proved itself a perfect remedy. It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of taint, purifies and strengthens the weak, deteriorated blood, supplies it with the healthful properties it needs and establishes the foundation for good health. Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all blood diseases and disorders are cured permanently by S. S. S. It is made entirely of roots, herbs and barks, and is the King of all blood purifiers. Book on the blood and any medical advice desired sent free.

TWO FLEETS FOR U. S. WARSHIPS IS HIS PLAN

Chief of Bureau of Navigation Submits Scheme Which Favors the Pacific Station.

WASHINGTON Nov 30.—The completed plan for the division of the fighting ships of the navy into two fleets for service on the Atlantic and Pacific coasts of the United States in such a manner that the whole force may be readily mobilized in case of an emergency is announced by Rear Admiral Converse, chief of the bureau of navigation of the navy department in his annual report made public today The concentration of the battle fleet in the American waters and assignment of all vessels therein to the command of one flag officer will be completed about January 1 next Rear Admiral Converse said that owing to our responsibilities in the Philippines and the far east generally an adequate naval force is needed in the Pacific ocean The assignment of the ships of the battle line is to Atlantic waters and of cruisers and gunboats to Pacific waters in accordance with present strategic requirements

The tentative assignment of vessels is as follows

ATLANTIC FLEET.

First squadron first division—Connecticut, Louisiana Maine, Missouri

Second division—Georgia, New Jersey, Rhode Island Virginia

Second squadron third division—Alabama, Illinois Kearsarge Kentucky

Fourth division—Ohio Indiana Iowa

Third squadron fifth division—Tennessee Washington, St Louis

Sixth division—Columbia, Des Moines Cleveland, Tacoma

Fourth squadron seventh division—Dixie Marietta, Newport Don Juan de Austria,

Eighth division—Prairie Dubuque, Paducah Scorpion

The seventh and eighth divisions will be held in reserve until their services are no longer required for police and patrol duty

In reserve—Texas Brooklyn

Second torpedo flotilla—Hopkins, Lawrence Macdonough, Whipple Truxtan, Worden

Third torpedo flotilla—Wilkes, Blakely, De Long, Rodgers, Stockton

ASIATIC FLEET

First squadron first division—West Virginia Maryland Pennsylvania, Colorado

Second division—Baltimore Chattanooga Galveston, Cincinnati

Second squadron third division—Raleigh, Concord Helena, Wilmington

Fourth division—Callao, El Cano, Quiry, Villabos

Coast defense—Monterey Monadnock

First torpedo flotilla—Bainbridge Barry, Dale Chauncey Decatur

PACIFIC SQUADRON

First division—Charleston, Milwaukee Albany New Orleans

Second division—Chicago Yorktown Boston Princeton

Fourth torpedo flotilla—Preble Paul Jones Perry, Farragut, Goldsborough Rowan

At an early date it is expected that the Asiatic fleet and the Pacific squadron will be merged into one Pacific fleet under the supreme command of a flag officer of the highest rank in the same manner as the Atlantic fleet is now organized

The Bureau of Navigation is making every endeavor to secure a battleship strength of sixteen in the Atlantic fleet divided into two squadrons which will furnish every opportunity for the practice of battle tactics and will enable the higher officers to acquire facility in their exercise of a large fleet and in maneuvering one homogenous squadron against another

CAN YOU USE FOOD WHEN YOU GET IT?

Thousands of Stomachs Starving Where Mouths Are Well Fed. Costs Nothing to Relieve This Condition.

Eating is fast becoming too much a part of the daily routine if not a mere tickling of the appetite—a thing to be gotten out of the way as quickly as possible Little thought is given to 'what kind of food,' its effect upon the system and whether it will be of use in building up the tissues of the body

Your stomach will revolt if it is not already doing so It must shut up for repairs What of the dizziness and sometimes pain, which stop you after a hurried lunch? What of the general distress after a heavy dinner, a feeling of pressure against the heart which calls a halt and makes the breathing difficult? Is it common for you to be oppressed with belching and sour eructations? Are you constipated and then do you laughingly toss a dime to the drugigst for his most palatable relief? Beware of temporary cures that are but palliatives Many antidotes for the common ills which our flesh is heir to seem at first to relieve but in reality if not injecting poison into the system lay the foundation for a deeper-seated and more far-reaching disorder

Three-fourths of all diseases originate with a breaking-down of the digestion and nine-tenths of all digestive troubles originate with one or more of the symptoms named above

Beware then, of Indigestion and Dyspepsia If you find yourself aching listless lacking in ambition when you should be on the alert,

Do not doctor the stomach

It needs a rest from food and drugs.

Do not flush out the bowels

takes more than forcing food through the passageway to make blood and tisue and nerve

Do not starve your stomach

food is a thing to be worked for all there is in it and your stomach will do the work if you will help it in Nature's way

Stuart's Dyspepsia Tablets contain nothing but the natural elements which enter into the healthy stomach and intestines to perform the function of digestion Governmental tests and the investigations and sworn oaths of expert chemists attest this fact Stuart's Dyspepsia Tablets go to the source of the trouble and positively restore the glands and fluids of the mucous membrane to their proper condition They promptly relieve the distress of all troubles originating in the stomach or bowels (with the one exception of cancer)

Stuart's Dyspepsia Tablets are recommended by physicians and all reliable pharmacists If you are a sufferer from indigestion or dyspepsia try a fifty cent package today At all druggists' or if you prefer send us your name and address and we will gladly send you a trial package by mail free F A Stuart Co 63 Stuart Bldg Marshall, Mich

SHEDS LIGHT ON FAIR MARIN

"In Tamal Land," by Helen Bingham, Tells of the Country's History.

While many volumes have been devoted to the southern part of California, the northern section has remained in comparative isolation and though replete in historic associations picturesque scenery and romantic traditions it has been like an uncut diamond awaiting the lapidary who could reveal its hidden beauties and possibilities

With the recent publication of "In Tamal Land by Helen Bingham a new epoch has been made in the literature of this northern region

Dealing with the past present and future of Marin In Tamal Land combining the historic legendary and industrial with the beauties of nature and the possibilities of man is a harmonious blending of the esthetic and the practical the romantic and the real

It is told in a graphic, lucid manner and with its fund of facts and fancy may well be called a book for all readers

Printed on glossed vellum paper, voluminously illustrated and surmounted by a cover of effective design, in which a silhouette of Mount Tamalpais appears against a sunset sky, 'In Tamal Land is as unique in its dress as in its literary treatment

POOR SIGNALS ON RAILWAYS

British Criticism of Safety Devices on Roads in the United States.

NEW YORK, Nov. 30.—S A Pope, of railroad inspection in the United States and Canada in the interests of his company. He sails for England tomorrow on the liner Caronia. In an interview yesterday Mr. Pope said

"The principal object of my visit to America was to get the Atlantic steamships to land their mails at our new depot on the coast of Pembrokeshire It is 239 miles from London and the journey is made in four and a half hours. The Cunard line, with its new steamships, can no longer use Queenstown as a port of calls for the mails When I came out on the Lucania, I waited there for four hours and missed landing in New York on Friday night.

"I have seen the postmaster-general here and in Ottawa to discuss our scheme with them. I have been much impressed with all I have seen, but the railroad conditions in England are very different to those in this country. In America freight comes before passengers and with us it is the reverse The safety signals in America could be very much improved and the appalling number of accidents prevented As regards carriages, I think that the English people would not stand the manner in which passengers are packed into Pullman cars at night. With us, each person has a compartment and a bed. The roadbeds in the east are good, but they are bad in the west and so they are in Canada.

"Americans are a long-suffering people," Mr Pope continued. "Since I have been here ten persons have been killed in one wreck and fifty in another. It made a stir in the papers for one or two days and then it seemed to be forgotten. Under the English system two trains are never allowed to be in the same section at the same time."

THIS DRUGGIST'S EXPERIENCE

Should Interest Oakland People.

Mr Jos F. Bradley, a prominent druggist of New Brunswick, N J, writes "I have sold Vinol, the cod liver preparation without oil for the past three years, and it has given perfect satisfaction

"I now use Vinol in my family and can highly recommend it It is always a pleasure to recommend a medicine that I have found to be first-class"

The reason Vinol is so fast superseding and so far superior to old-fashioned cod liver oil and emulsions is because it contains all of the medicinal, body-building elements of cod liver oil actually taken from fresh cods' livers, with all of the useless and nauseating oil eliminated and tonic iron added

Vinol makes pure, rich, red blood. It is delicious to take and the weakest stomach can retain it

As a body-builder, and strength creator for old people, weak women, delicate children, after sickness, and for all pulmonary diseases Vinol is recommended by over 5000 of the leading druggists of the United States Your money back if it does not do all we claim for it The Owl Drug Co

Note —While we are sole agents for Vinol in Oakland, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

BORGHESI WINS THANKSGIVING HANDICAP IN AN EASY MANNER

A Fine Exhibition of Form and Speed---Spreckels' Horse Never Headed and Well Handled by Jockey Knapp.

By LEE DEMIER

All roads led to Williams Park this Thanksgiving afternoon From before noon until the running of the big handicap the multitude poured through the gates to the beautiful Emeryville inclosure in a steady stream Over 10 000 people crowded every nook and cranny—the largest crowd ever seen at this popular resort The vast assemblage bent on witnessing some glorious equine sport was not disappointed It was a big good humored sport loving and appreciative crowd representative of the best element on both sides of the bay The congestion was so great that hundreds of intending bettors were unable to place their wagers thus hand of necessarily impartial enthusiasts were thus able to cheer winners and losers alike which conditions exist only on occasions of great holiday gatherings The chief magnet of attraction today was the classic Thanksgiving Handicap at one mile and a furlong in which several famous thoroughbreds strove for the rich prize

Owing to the muddy condition of the track the field of starters dwindled to seven which is the smallest number of horses that have ever contested for this important annual holiday fixture since its inception William Walker at the last moment mined his good mare Dolbrida to try for the rich prize and Sam Hildreth saw fit to withdraw his crack mare Logistella Its mix up today did not however differ materially from that of other years the usual galaxy of turf stars being present to shed lustre on what was really the first big stake race of the season The sidelights to the main attraction was the five furlong affair in which a grand field of sprinters including the unbeaten mudlark Shotgun tried conclusions The two year olds introductory event at the same distance enhanced by the presence of the fast Ocean Shore and three interesting dashes at varying distances made up the card

FIRST RACE

Ocean Shore is a handsome sort of a two year old to have around This youngster annexed the curtain raiser in the easiest manner imaginable making it three successive wins since opening day He was always favorite at even money and simply galloped home from the second choice Plausible triumphant the third choice was third Time 1 01 2 5

SECOND RACE

Billy Magrane's good gelding Magrane by Bulgowan at the rise of the barrier jumped to the front and simply romped his field all the way Fred Dent who was heavily played stalled off the determined rush of Atkins for second money the latter lasted long enough to get third place Time 1 8 2 5

THIRD RACE

A poor start mildly let Shot Gun the even money favorite in the five furlong sprint Cruzados got away flying and heavily played at 5 to 5 made every post a winning one almost equalling the California record for this distance Behind Cruzados and Shot Gun came Burleigh Time 0 58 4 5

FOURTH RACE

Just before the horses were to the post in the Thanksgiving Handicap it was discovered that Blue Eyes had not been officially scratched and when the entries assembled in the paddock he was one horse missing Owner Sheridan who intended to have his entry excused evidently neglected to do so Will Pic Eyes out of it twenty minutes were considered for a new book Proctor Knott favorite and was played at 3 to 5 The others ranged in price from 4 to 1 to 25 to 1 the latter being Hildebrand against the added starter Behind Speculation was brisk in this event and even Arise came in for some support The crowd in the betting ring surged around the third one bookmakers and showered coin upon their choices The big event was a proverbial snap for Borghesi from the stable of Rudolph Spreckels Is Willie Knapp had evidently heard what a great stake horse this trick was at Ascot last season and under hustling orders took his mount to front at the rise of the barrier and under a cautious and not over anxious ride left a high class field behind from flagpole to finish At the end he was running easy and the rich prize was never in danger of not going to the Sutro Vista stable Behind the winner came Proper who went after the pacemaker gamely but could not quite get up In saving was necessary on the part of Williams to keep his Prestopino gelding up to second position Corrigan was third Borghesi opened at 6 to 5 receded to 4 and closed at 3 to 1 Proper was always favorite while Courtegan was held at 3 to 1 Time 1 13 3 5

FIFTH RACE

Morendo and Lizzie Hall closed equal choices for this event and the former merely a gallop for Dan Cruzados paddock mate who was far as his ride pleased Jack Little made up ground and grabbed show money Time 1 56 1 5

SIXTH RACE

In a heavy disappointing finish Harbor won the mile race Dutiful got place money from Reeves Time 1 43

TENNIS CUPS ARE WON BY OLD PLAYERS

MURDOCK AND HUNT ARE WINNERS IN THE DOUBLES.

Schmidt and Rolfe Make Good Showing Against the Veterans

Percy Murdock and Reuben Hunt the veteran tennis team of Alameda won the Claremont Country Club doubles cups yesterday Harry Rolfe and Herbert Schmidt holders of the trophies lost in a three out of four set match

A large number of spectators witnessed the match which was close and exciting The first three sets were close and not until close in the fourth set was the outcome a certainty Percy Murdock with silky stab at the four and placed in such a manner as to time Hunt and all of his former speed and did some beautiful smashing and driving Murdock received excellent support from his partner who played nearer to his best game than at any time in the past

Considering their lack of practice Schmidt and Rolfe made a splendid showing The fact that they should be mitigated against that they have played together but little of late but put up a first article of tennis

In the first set Hunt and Murdock started off with a rush and won quite comfortably Schmidt and Rolfe made their best showing in the second set it was a close up hard fought game but they finally won it on the ninth hole gone to deuce The third set was a repetition of the second the score being 6 to 4 Hunt and Murdock will have their names engraved on the artistic trophies and will hold them for a year

The handicap Double tournament for the doctor's cups played on the California Club courts yesterday proved an interesting event they were completed to the semi finals the first match being Dr Hill and Moulton Warner meeting Maurice McLoughlin and Clarence Jones Hill and Long and Carl Gardner and D K Shanks and W G Knowlton

The handicaps were mostly those the best teams having set back to owe 30 Three of the limit teams reached the semi finals was due to the fact that most of them defaulted Hill and Long with odds of 30 and Jones some of them would seem to have been prominent

Jones and McLoughlin a new combination made the best impression They played only one match and won it only as they were opposed to Arthur Chesebrough and George Cutler who made a good showing and Chesebrough played fast tennis and the abutment the strongest combination in the club at the present time

Dr Hill and Moulton Warner with odds of 30 to 30 defeated Clarence Griffin and Harold Cattell in straight sets The winners played an unusually steady game Hill and Warner figure to have the best chance of beating McLoughlin and Jones

The closest match of the day was that between D K Shanks and W G Knowlton and Fitz Guerin and Henry Mills They met on even terms and three close sets resulted Guerin and Mills won the first set but lost the next two

The tournament will be completed next Sunday The semi final matches will be played Saturday afternoon and will be Dr Hill and Moulton Warner (owe 30) vs George Janes and Maurice McLoughlin (owe 30) and Carl Gardner and Melville Long (owe 30) vs D K Shanks and W G Knowlton (scratch)

COURSING STAKE IS WON BY DEFAULT

PURSE GOES TO BLOOMING DUTCHMAN, RABY AURORA HURT.

Eastern Dog Gave the Winner the Hardest Race of the Afternoon

SAN FRANCISCO Nov 30—The Thanksgiving stake at Ingleside Coursing Park yesterday was captured by the clever greyhound Blooming Dutchman Jim Sweeney's performer Raby Aurora was to have met the winner in the final but a severe coursing in the fourth round injured the runner ups chance and she was withdrawn The purse went to Blooming Dutchman by default

C Saunders Eastern dog Dave Reese gave the winner the hardest race of the afternoon and had it not been the way the jack swung there might have been a different result The winner was lucky in the fourth round with Miss Emily The latter led but was outworked after the turn

Raby Aurora was running with a great burst of speed and looked a winner until she met Miss Gambit in the fourth round In this course a strong hare was turned loose and the fleet pair put up one of the prettiest races of the day Both greyhounds scored in turn The hare raced the dogs all over the field and then made good his escape Raby won, but she was too exhausted to hook up with the stake winner The results follow

First round—Dave Reese beat Pongenie Blooming Dutchman beat Brewery Maid Onondago beat Lydia Our Porto beat Dolly Bishop Rowena Belle beat Nora Alto Miss Emily beat Wild Mamie Ina Cissus beat Butt In Frank C beat Young Johnnie Tom King beat Fair Flying Gallant Tipperary beat Mabel S Frank Dunn beat Roman Girl Stanley R beat Denver Eagle Syra Alto beat Sebastopol Iron House beat Rapid Water Doretta beat Cry Baby The Crowd beat Limerick Boy Miss Gambit beat La Rosa The Raven beat Footsteps The Pedlar a bye Arrow withdrawn Cuban Star a bye Billy Mullally withdrawn Wildwood beat Grace Hill, Raby Aurora beat Ragged Actor, Princess Savoy beat Our Bessie, Blue Bells beat John Morrisey

Fourth round—Blooming Dutchman beat Miss Emily, Frank Dunn beat Iron House, Raby Aurora beat Miss Gambit

Fifth round—Blooming Dutchman beat Frank Dunn, Raby Aurora a bye

Deciding course—Blooming Dutchman won by default, Raby Aurora withdrawn.

SCENICS WIN FOOTBALL GAME UNDER OLD RULES

They Defeat Springfield in an Interesting Contest on Berryman Field in Berkeley.

BERKELEY Nov 30—The Scenics won from the Springfields Thanksgiving morning on Berryman field in the north end in one of the most spectacular games of American football played on this side of the bay this season At the end of the second half the game stood 5 to 0 in favor of the former team

The game was of especial interest being played between former high school and college stars under the 1905 rules The game showed conclusively that the old game is still in favor here, the side lines being crowded with enthusiastic collegians and high school people watching for the first time this season a game played under the old rules without revisions Despite the fact that changes have been suggested in the game because of roughness and line plunging the game was marked by an absence of brutality There were no serious injuries

The Springfield eleven made a hard attempt to rally in the second half threatening their opponents goal twice, but failing in the attempt to cross the sphere over the line Toward the end of the half the Scenics wrested the ball away from their opponents and made a series of dashing plunges through the line The ball was in the possession of the victors but ten yards away from another touchdown when time was called

Despite the fact that eight college men were in the line-up, it is hardly likely that any action will be taken by President Benjamin Ide Wheeler of the University, as the game was not played under the surveillance of the University authorities

The college men who took part in the game were Kerr A Solinsky Johnson, Miller Merritt Peck and De Merritt The remainder of the men in the line-up are high school stars

The line-up follows

Springfields	Positions	Scenics
Turner Houghton	C	McCarthy
De Merritt	R G L	Kerr
Dugan McFarland	R T L	A Solinsky
Matthew	D E L	W Mackie c
Laird	L G R.	Stearns

ROVERS WERE BEST SORT OF SPORTS

EDITOR TRIBUNE—Sir I would like to acknowledge through the columns of your paper, our appreciation of the thorough sportsmanship and amateur spirit shown by our opponents in the now historic game of Sunday

In spite of as keen a rivalry as ever existed, even between our two California universities Jesse Moore, secretary of the Albion Rovers football club and other members of that club, immediately on arrival on the grounds finding the Hornet officials hard at work preparing the field for play, jumped in to assist The goal nets were put up entirely by the Albions, before the game, and after the keenest game ever witnessed in California, during which the enthusiasm reached a pitch of intensity probably not known even in the systematically worked up brand at university games. (and I've been to many)—took them down again

It may not be generally known that if we had not had the grounds fully marked and nets erected by 2 30 p m, the Albions could have legally claimed the game Their action was therefore the acme of true sport and we wish publicly to thank them and also to acknowledge the same spirit shown throughout a nerve-racking game

Yours truly
EDGAR POMEROY

ASCOT SEASON OPENS IN A RAIN

HEAVY TRACK AND SLOW TIME MARK FIRST DAY'S SPORT.

Bill Curtis at 25 to 1 Furnishes Surprise—Other Long Shots.

LOS ANGELES, Nov 30—The racing season at Ascot Park opened yesterday with an attendance that approached 8000, although the day was cold and threatening, and rain fell up to the hour of noon. The course, which has hitherto been very fast, was too slow to permit of close judgment upon the horses that participated, but there were three close finishes, and the interest manifested continued until the last race was run

Oarsman, the 5 to 2 favorite in the Jonathan Club handicap, won the sweepstakes worth $1750 to the first. Arimo, quoted at from 10 to 1 to 15 to 1 ran a spectacular race, finishing second after leading by three lengths for nearly a mile. Oarsman failed to get a clear track in the early portion of the race, and Arimo, well ridden rounded into the stretch with a wide advantage Harris on Oarsman, shook up his mount in the last eighth and won with two lengths to spare Arimo having tired Gorgalette and W H Carey, who finished in third and fourth places, were favored by many

Bill Curtis quoted as high as 25 to 1, furnished the greatest surprise of the day Away in the ruck he speedily assumed the lead and maintained his advantage by a length as the wire was passed The defeat of J F Donahue and Oratorian upset all calculations in the betting ring

To a slow track was ascribed the victory of Kirkfield Belle in the last race at 10 to 1, and Judge Denton's defeat of Elfin King, who was heavily played to win the fifth event

Colonel A W Hamilton is presiding judge at the meeting J J Holton was starter Eighteen bookmaking concerns were represented in the betting ring

FIVE STRAIGHT WINNERS PICKED BY THE TRIBUNE

Five straight winners, including the Thanksgiving Handicap, were picked by Lee Demier in THE TRIBUNE yesterday, and those who bought TRIBUNE extras in the morning and followed the tips can afford to eat turkey until another handicap day rolls around. Here is Mr. Demier's record, almost unprecedented in the history of doping winners:

TWO BEST BETS—OCEAN SHORE AND MORENDO.
BEST TAKE A CHANCE BET—MAGRANE.
THANKSGIVING HANDICAP—BORGHESI.
THIRD RACE—CRUZADOS.

And just to make a clean sweep, THE TRIBUNE'S Lookout told that Harbor would take the money in the sixth race, and it was so.

It was a great day for THE TRIBUNE'S green racing special, but not the only day. Mr. Demier and other writers for Oakland's Greatest Newspaper have made a record already in picking winners at Emeryville this season that has gladdened the hearts of TRIBUNE readers and jarred the bookies.

But seldom can even the most astute dopester go down the line for five straight wins, with a half dozen places and shows thrown in for good measure, as Mr. Demier did yesterday, and as he will do again. So if you must bet and don't want to sleep in the park these cold nights read THE TRIBUNE'S green racing extra and bet your head off.

NEW WORLD RECORD WITH 12-LB. SHOT IS MADE AT STADIUM

RALPH ROSE'S GREAT FEAT

SAN FRANCISCO, Nov. 30.—The track and field day given by the Olympic club in the Stadium yesterday was a record-breaking event, both in the way of attendance and also in the way of lowering records. The track was in anything but good condition.

A world's record in putting the 12-pound shot was broken by Ralph Rose, who put it 55 feet 6½ inches. This is one and a half inches farther than the distance covered by C. R. Gray of the New York Athletic club at Travis Island in 1902.

In the hop, step and jump T. Rogers of the Emerald Gaelic Athletic club covered 46 feet 2¼ inches, breaking the coast record by 1 foot 6¾ inches.

In the 440 hurdles J. Willison ran the distance within seven seconds of the world's record.

The 300-yard race was the prettiest event of the day, the men being so well handicapped that they practically finished together.

There were more than 3000 spectators at the events. The followng are the results:

100-yard invitation handicap—Crossfield first, 3½ yards; Gerhardt second, 3 yards; Snedigar third, scratch. Time, 10 1-5 seconds.

880-yard team race—Olarner, A. C., first; R. Kelley, Webster, second; T. B. Smith third. Time, 2:18.

Fifty-yard scratch—First heat, Gerhardt, 5 4-5 seconds; second heat, Snedigar, 5 3-5 seconds; third heat, Crossfield, 5 4-5 seconds; fourth heat, Greeley, 6 seconds. Final—Snedigar first, Crossfield second, Gerhardt third. Time, 5 4-5 seconds.

Fifty yards, for boys under 15 years—First heat—Taussig first, Toohig second. Time, 6 2-5 seconds. Second heat—Street first, Wakeman second. Time, 7 2-5 seconds. Final—Taussig first, Toohig second. Time, 6 2-5 seconds.

One mile handicap—R. Kelley first, W. H. Hanford second; O. Boeddiker third. Time, 5:02 2-5.

100-yard novice race—First heat—Block first, Van Acker second. Time, 11 2-5 seconds. Second heat—Dearborn first, Hershfield second. Time, 11 2-5 seconds. Third heat—Greeley first, Beckett second. Time, 11 3-5 seconds. Final—Block first, Beckett second, Dearborn third. Time, 11 2-5 seconds.

440-yard hurdles, scratch—J. Wilson, first, A. Glarner second, G. Padella third. Time, 1:05 4-5.

75 yards, scratch, for fire and police department—Biermenn first, police; Kelly, second, police.

250 yards, for boys of San Francisco Athletic league—Taussig first, Talbot second, Latham third. Time, 32 2-5 seconds.

200-yard handicap—A. Glarner first, F. Gray second, E. McNamara third. Time, 35 3-5 seconds.

Relay race—Olympic club first, U. C. second, O. C. No. 2 third. Time, 1:39 1-5.

FIELD EVENTS.

Pole vault—A. Munn first, Snedigar second, C. W. Brown and W. J. Willison tie for third.

Running hop, step and jump, scratch—T. Rogers first, 46 feet 2¼ inches; Snedigar second, 42 feet 4¼ inches; A. Munn third, 39 feet 7 inches.

16-pound shot put, handicap—O. Wallfish first, handicap 11 feet, 37 feet 5¾ inches; H. Dignan second, handicap 12 feet, 35 feet; Ralph Rose third, scratch, 45 feet 1 inch.

Running high jump, handicap—W. A. Powell first, 5 feet 9 inches; A. Munn second, 5 feet 8 inches; F. H. Bressi third, 5 feet 7 inches.

12-pound shot put, handicap—O. Wallfish first, handicap 14 feet, 42 feet 8 inches; Ralph Rose second, scratch, 55 feet 6½ inches.

Throwing 32-pound weight, scratch—Ralph Rose first, 45 feet 6¾ inches; Snedigar second, 44 feet 2½ inches; Munn third, 42 feet 11 inches.

The following were the officials:

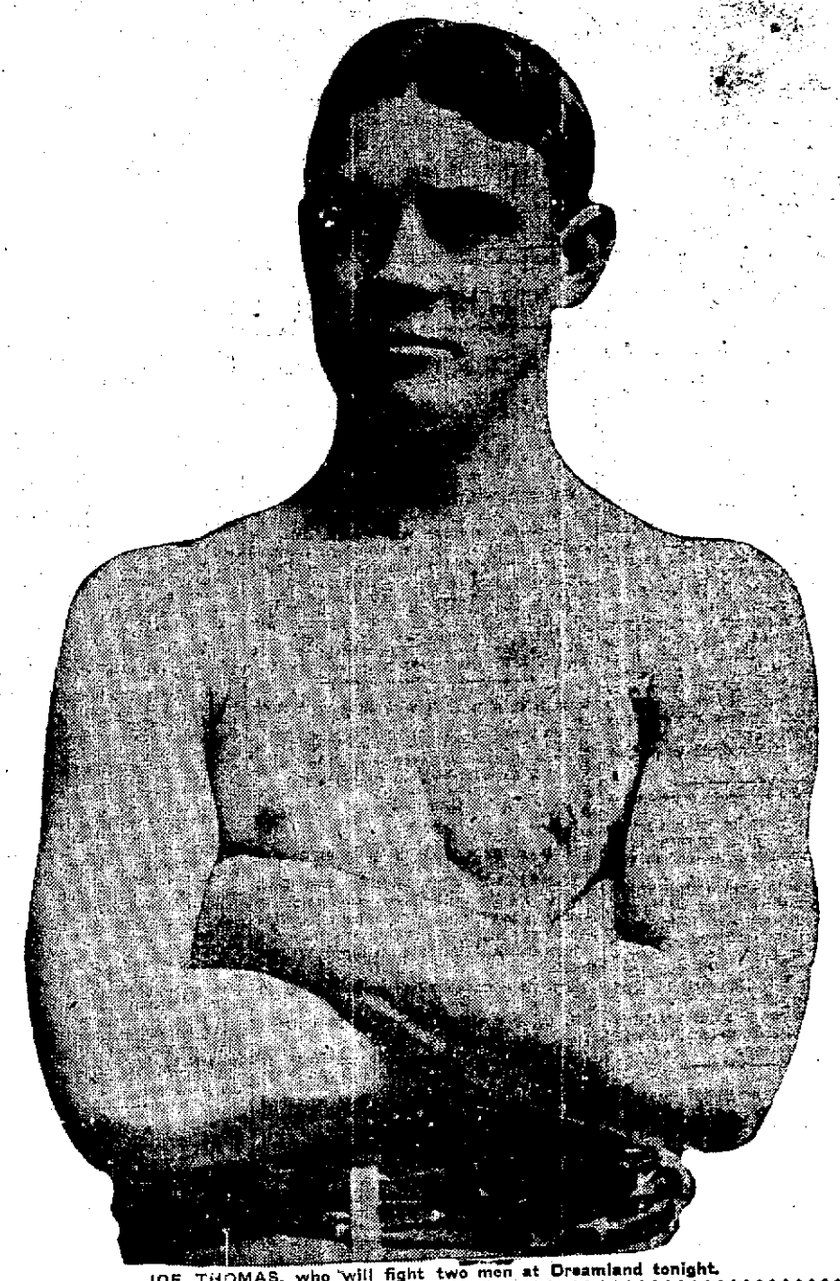
THOMAS IS FIT FOR DIFFICULT FEAT OF ATTEMPTING TO STOP TWO FIGHTERS IN ONE NIGHT



JOE THOMAS, who will fight two men at Dreamland tonight.

Joe Thomas will essay the difficult task of outboxing two men tonight in Dreamland Pavilion, something which has not been done here in a long time. Thomas has selected Frank McConnell as the first man who must face him. It is planned by the management to have them enter the ring shortly before 9 o'clock. At the conclusion of this bout what is usually the preliminary will be presented and then Thomas will enter upon the last half of his contract and will take on Al Neill.

While Thomas is generally believed to outclass his opponents, McConnell does not share in this belief and has an idea he can outpoint the young welterweight who has come to the front so rapidly in the last two years.

The referee question is in a muddled state. The advertising posters announce Eddie Smith as the official arbiter of bouts, but it has been given out by members of the fight trust that Billy Roche will be third man in the ring. The boxers must weigh in at 150 pounds at 3 o'clock, at which time they will confer with Morris Levy as to the referee.

While Thomas is resting between bouts Kid McFadden and Bobby Johnson will be put on for a ten-round go. Johnson will take the place of Tommy Knight, who wanted the management to cut down the length of the bout and to make other concessions.

POLO ON BURLINGAME COUNTY CLUB FIELD

All doubt as to the success of the polo season at Burlingame Country club was dispelled yesterday by the marked interest shown in the opening game by both players and spectators alike. The game was played on the private field of Francis J. Carolan at Crossways Farm, and was won by the team headed by Mr. Carolan.

The field was both safe and fast, the rain of the previous day giving it just the required touch. The majority of the ponies and some of the players showed a lack of condition, but a few games mated with the spirit shown yesterday will smooth down the rough edges.

Cyril Tobin was the sensational player of the day, but Thomas A. Driscoll ran him a close second. The latter showed more consistent form than any other player on the field, the result undoubtedly of considerable work with his ponies. He has been out of the game for two years, but in all this time he has kept his string of ponies intact and was thus completely well mounted and able to follow any pace set by the opposing players.

The teams were made up:

Whites.	Reds.
P. J. Carolan.	E. J. Tobin.
Cyril Tobin	T. A. Driscoll.
Walter Dillingham.	R. M. Tobin.
John Lawson.	W. S. Hobart.

Referee, S. Parsons. Timekeeper, J. O. Tobin. Score—Whites, 5, Reds, 1.

The only new name in this line-up is that of Walter Dillingham of Honolulu. He is a thorough horseman and an excellent player and will be a valuable addition to the polo colony if he plays throughout the season. He was the only player unmounted during the day, but he escaped injury. Driscoll was on the line of the ball, and the player of the opposing team crossed him. Dillingham was caught off his balance and was rolled on the soft turf without even being jarred.

While the game lacked team work and the snappy play which will mark the contests later in the season, it was an interesting struggle. The players were in earnest, and fought every inch of the way. It was at first thought that four periods would satisfy the players for their first time out, but before they were thoroughly satisfied they had played the regulation six periods. An unusually large gallery witnessed the game, the athletic pavilion being crowded, while the people of the countryside viewed the struggle from a stand across the field.

Neither side was able to score in the first period, although the whites did most of the forcing. The reds scored once in the second period and once in the third, Driscoll and R. M. Tobin being the successful players. With this good start it seemed the reds would surely win, but their opponents then went on and rolled up a total of five goals. Three of these were credited to Cyril Tobin and one each to John Lawson and Dillingham. The players were loath to stop, and it was dusk when the game was completed.

FORTUNE CAME TO HIM ON TURF

DIAMOND GUN BRADY PAID GREAT PRICES FOR HORSES.

Fabulous Winnings Showed His Judgment as a Horseman.

Within the few years that James B. Brady has raced horses he has gained turf fame and fortune. He entered "the sport of kings" a novice at the game, but by either good judgement or good luck he has bought some of the best race horses that ever carried a saddle and with them won many a classic.

Was it good judgment or merely luck that caused "Diamond Jim" to buy successively the great horses Gold Heels, Oiseau, Waterlight, Accountant and Fountainblue? Whenever this question is asked of Brady he will say, "Good judgment on the part of Matt Allen and myself." But when the query is put to trainers they always reply "heaps of good luck."

Whether it was judgment or luck that influenced the big Wall street financier to select these fast horses while other men were paying big prices for thoroughbreds that had little or no speed, Brady bought them, and he and his trainer, Matt Allen, managed them so well that every horse more than repaid its purchase price within the first year that it passed into the hands of its new owner and trainer.

Gold Heels was the opening wedge for James B. Brady's appearance on the turf. This was in 1901. At that time he knew little or nothing about race horses, but took the "tip" tendered him by his friend, F. C. McLewee, and bought Gold Heels for $10,000. McLewee had served his apprenticeship in turf affairs some years previously when he acted as the manager of George Ehret's stable.

BRADY BUYS GOLD HEELS.

It was this knowledge, gained while with Matt Allen, who had trained the Ehret string, that caused McLewee to suggest to Brady that Gold Heels was a good horse to buy. The horse at that time was owned by Dave Slone, who had bought him from the late W. C. Whitney. The latter parted with the horse for $2000, believing that he was merely a cheap selling plater. Under Slone's care he improved so much that it attracted McLewee's attention, and he in turn told Brady that the colt represented a hidden fortune, for he would undoubtedly develop into a great race horse.

Brady, who at that time knew more about promoting a financial deal, bought the little bay horse and turned him over to Allen to train. It was his first venture, and fearful that it might be a failure, he entered the horse in McLewee's name. Under the latter's colors—white, with red stars, the old Ehret silks—Gold Heels won the Suburban Handicap of 1902.

In the fall of 1904 he told his trainer to be on the lookout for two good race horses. Allen saw Aiseau and Waterlight told Brady about them, asked him to call and inspect them and if he liked them they could be bought. Brady looked them over and then bought Aiseau for $30,000 and Waterlight for $10,000.

These horses were really Brady's entree to the turf. They ran in his name, and for the first time his "red, white and blue" colors were carried.

BIG PLUNGE ON OISEAU.

Oiseau was the first horse to win for him, and in less than two races Brady, by plunging heavily on him, won his purchase price. Waterlight soon after followed the good fortune of his stable.

When this season opened Brady soon realized that he had to get new material if he wished to keep up in the front ranks as an owner of fast horses. Oiseau was ill and Waterlight's legs were under suspicion. It was then that he decided to buy Accountant. This big colt, by Filigrane, had been beaten twice by Burgomaster, but he was such a good-looking horse, sound in wind and limb, that he impressed Brady and Allen as a first-class investment.

While they were talking the matter over, news came that Burgomaster had gone lame, and this removed the chief stumbling block in the path of Accountant's probable success. Immediately Brady hastened to W. Harry Brown, who owned the horse, and bought him for $15,000.

Accountant was well engaged in many rich events, but he had to win a number of these in order to repay his purchase price. In order to do this he had to race many miles. Brady was not afraid of the outcome, and he was subsequently rewarded for his courage when Accountant developed into the best race horse of the season and won stakes that were worth in the aggregate $75,000.

BUYS FOUNTAINBLUE ALSO.

It was because he had such great success with Accountant that Brady bought Fountainblue for $35,000. This colt started off by winning the first time in his new owner's colors, but later met with two defeats. In these races he was beaten by De Mund and Salvidere. His showing was so poor that neither Matt Allen nor Brady believed that it was a true exhibition of his speed, and harshly criticised the horsemanship of Jack Martin, who rode him.

Bitter as these defeats for Fountainblue were to Brady, he never lost faith in his horse, and when that colt won the Triumph Stakes recently Brady nearly went frantic with joy.

Brady is one of the picturesque figures on the turf. He had previously earned the sobriquet of Diamond Jim by appearing in public places fairly ablaze with diamonds. Big, white stones were imbedded in umbrellas and canes. He carried them in cuff buttons, his shirt buttons, and even wore them as buttons on his waistcoat. He was a living, breathing diamond mine, and attracted attention wherever he went by the display of wealth.

It is one of Brady's peculiarities that he seldom, if ever, sees one of his horses run every foot of the race in which it is entered.

EXPECTED A KNOCKOUT BY O'BRIEN

NEW YORK, Nov. 30.—Local sporting men today expressed keen disappointment over the showing made by "Philadelphia Jack" O'Brien in his bout with Tommy Burns at Los Angeles Wednesday night. They expected O'Brien to score a knockout over his Detroit opponent before the end of fifteen rounds, and the fact that the Quaker only got a draw surprised them.

In the opinion of New York sporting men Wednesday night's battle eliminates O'Brien from the list of heavy-weight championship possibilities. They now regard him as a clever boxer capable of holding his own with middleweights, but with no license to take on heavier men. For Burns they have the greatest admiration, for, notwithstanding his inexperience, he fought a great battle.

Either man, however, "Honest John" Kelly thinks, should be 1000 to 1 if he meets Jeffries.

HART ANXIOUS TO MEET O'BRIEN

LOUISVILLE, Ky., Nov. 30.—Marvin Hart, local heavy weight, wants to fight either O'Brien or Burns, and is willing to meet both of them, all of the receipts to go to the winner. Hart declared in an interview today that all he wishes is a chance. He said:

"I am going right after Burns and O'Brien. I want a battle and I do not care who it is. I want to say that I can't get a match. It is up to the others. Burns is a foul fighter, but in the Queensberry style I could soon take that out of him. You see, when I met Burns we fought clean break rules. Last night O'Brien boxed him according to Queensberry regulations. That is my style. Nothing would please me better than to fight both men that way."

MELODY WHIPS WALCOTT IN BOSTON

BOSTON, Nov. 30.—Honey Melody of Charleston defeated Joe Walcott of Boston at the Lincoln Athletic club in Chelsea tonight. In the twelfth round Walcott quit. He said later that his left arm became disabled in the ninth round and that it was impossible for him to continue.

The men fought at 142 pounds. While the contest developed into a slugging match in the first round, Melody's exhibition of footwork and blocking was splendid. Walcott appeared confused and was unable to land a telling blow until the fifth round.

In the sixth Mellody came back like a whirlwind. A punch to the head, combined with a slip sent the negro to the floor. He was up immediately, but a second later Mellody landed a left to the jaw that forced Walcott against the ropes.

In the eleventh Mellody put in punches at will and in the twelfth sent rights and lefts into the negro's stomach. Before the round was over Walcott plainly was in distress. He turned and walked to his corner. After Referee Sheehan had decided Mellody the winner Walcott gave the explanation that in the ninth round his left arm had become disabled.

NEWS FROM BERKELEY AND CITY OF ALAMEDA

NEW CHARTER IS THE MAIN TOPIC IN ALAMEDA

E. K. TAYLOR

3 Prominent Men May Enter Race for Mayoralty.

TO BE 9 COUNCILMEN

ALAMEDA, Nov. 30. — With the county election gone, and almost forgotten, there is considerable talk here over the new charter and the officers who will serve when the new organic law is adopted. The charter, adopted by the voters a few months ago, will come up for ratification at the session of the legislature and, if approved, an election will be held to fill the offices for which it provides.

The office of mayor, a new distinction for this city, will be quite a fight judging from the talk on the streets and the rumors that secret meetings are already being held to select a candidate. Three men have been mentioned for the honor to this time. E. K. Taylor, who was the chairman of the Board of Freeholders which framed the charter, Joseph F. Forderer, who has served the city as trustee for a number of years, and William Bowers who is on the Board of Trustees at present.

JOS. F. FORDERER
Probable Candidates for the Mayoralty of Alameda Under New Charter.

That all these men are capable of filling the office is acknowledged and because of the direct primary, which is provided for in the charter, the most popular candidate may be known when the primaries are held. There is a salary of $50 a month attached to the office.

The new charter specifies that there shall be nine councilmen and while the politicians, and others, are talking of logical men for the offices, considerable attention is given to the council. The city clerk and city attorney, also the Boards of Education and Health, will be appointive.

After the legislature has accepted the charter and ratified it preparations will be made for the election.

BIG AMOUNT TO BE SAVED ON REPAIRS

FIXING OF HIGH SCHOOL WILL NOT ENTAIL COST ANTICIPATED.

Though $20,000 Was Granted, $12,000 Will Reconstruct the Building.

BERKELEY, Nov. 30.—The cost of repairing the Berkeley High school is to be seven or eight thousand dollars less than originally planned. Bonds were recently voted for $20,000 for this purpose and the town will be saved considerable money according to the information now given out by School Director A. H. Broad, who is repairing and rebuilding the structure by day labor.

On October 2 at a regular meeting of the Board of Education bids were received and opened for the repairing of this building. The first bid was that of W. W. Anderson an Oakland contractor who offered to do the work for $23,777, and the second was that of Nels Anderson of the same city, whose bid was $19,775. These bids the board considered too high and therefore adopted a resolution to repair the building by day labor under the supervision of School Inspector Broad.

At the time Architect F. D. Voorhees of Oakland drew up the plans for reconstructing the building it was given out by the architect that the work could be done for $18,200 or less. Through the careful planning and supervision of Inspector Broad the city will now have a building that will be much stronger than it was prior to the earthquake of last April, the cost of which will be in the neighborhood of $12,000.

LODGE ELECTS NEW OFFICERS

Oakland Circle, No. 266, Holds Meeting and Entertains Members.

Oakland Circle 266 held its regular meeting Saturday, November 24, Guardian Neighbor Halter in the chair. After the usual business of the evening, this being the regular night for nomination and election of officers for the ensuing term, general election was held, at which time the following officers were elected: Guardian, Neighbor Cruza; advisory lieutenant, Neighbor Lucy Peterson; magician, Neighbor J. Wilkson; attendant, Neighbor W. Williams; inner sentry, Neighbor Cross; outer sentry, Neighbor McDonald; manager for long term, Neighbor D. Simons; musician, Neighbor C. Maker

The work of obtaining new applications is being kept up by the Circle, the Neighbors being ably assisted by special organizer, Neighbor Miller. There were received at this meeting three new applications and a class of five received the protection degree of the camp.

After this business was disposed of, the hall was turned over to the entertainment committee, who gave a social evening of whist for four very beautiful hand-painted china prizes. There were twelve tables, and quite a few interested on-lookers were entertained by selections rendered on the piano by Neighbor Maker. The following carried off the honors of the evening: the Misses Fox, and Neighbors Waterman and Fraser. The Circle is planning a big meeting for the installation of its officers, notice to be given at a later date.

I. O. O. F. 198.

At the next meeting of Fountain Lodge No. 198 I. O. O. F., December 8, important business will be transacted. Action on a resolution to invest a large amount of the lodge funds will be taken.

The election of a Noble and Vice-Grand for the next term, and if time permits the first degree will be conferred. Refreshments will follow.

At the last meeting a candidate was initiated, and an application for membership referred to a committee.

GIRL'S CRIES FROM BARN UNHEARD

MISS ELIZABETH KEITH POND FOUND DOWNY BED IN STABLE HAY LOFT.

Missing Lass Explains Away Her Sudden Disappearance From Her Island Home.

VALLEJO, Nov. 30.—The mystery of the disappearance from home of Elizabeth Keith Pond, daughter of the commander of the Mare Island navy yard and niece of William Keith, the landscapist, was not wholly dispelled when it was announced today that she had returned and had passed the night, while naval officers and men were scouring the island for her, asleep on a bed of hay in a barn.

Members of the family denied themselves to newspaper men today and could not be induced to discuss the incident in any way. The explanation of the girl's qeer lodging for the night while the whole island was aroused over her disappearance was given out by friends of the family, who continue to scout all stories of attempted suicide and say that the Government reservation has become unduly aroused over the matter.

They say the girl was found at 5 o'clock this morning in the barn, which is directly in the rear of Commander Pond's island residence. The story they tell is to the effect that she entered this barn late yesterday afternoon to feed her pet horse and that, while doing so the snap lock of the hay loft became fastened. When she discovered her predicament, they say, she became frightened and began calling for help.

No one in the house heard her for some reason, although members of the family were at home at the time. Finally, she became worn out from her ceaseless and vain cries for help, they say, and fainted. They add that she remained unconscious for several hours, but finally came to and decided to make the best of the predicament she found herself in by lying down on the pile of hay, where she was found asleep this morning.

Miss Pond kept to her room all day today and her friends represented her as being still affected by the ordeal she underwent in the stable. They said they expected to see her around in a day or two, taking her accustomed place in the young naval set of the island, which has become especially interested in her since her engagement to Dr. Francis M. Shook of the United States Navy Medical corps was announced a week ago.

They insist that the former Berkeley girl had nothing to be worried over at the time she disappeared from home and that the police of Vallejo, who were asked to join in the search for her, have possibly attached too much significance to the incident.

PIONEER WOMAN IS SUMMONED

ALAMEDA, Nov. 30.—Mrs. Margaret Blunt, the wife of Thomas Blunt, who for a number of years was employed as watchman at the oil works in the West end, died at her home at 2133 Encinal avenue yesterday after an illness of several weeks. Mrs. Blunt lived in Alameda for about twenty-five years. She is survived by her husband, two daughters and a son.

CUT WINDOWS PUZZLE POLICE

Glasses of Adjacent Alameda Homes Mysteriously Tampered With.

ALAMEDA, Nov. 30.—The police are considerably puzzled over two reports which have been made this week. Tuesday Mrs. S. Center, residing at 2138 San Jose avenue, reported that a rear window in her home had been cut with a diamond and the glass had been partially removed. Yesterday J. E. Eggers, residing in the next house to the Center home, made a similar report. Whether the windows were cut from maliciousness or with intent to rob the homes is a matter of conjecture for the police to decide.

Giving Thanks

the day after is not so easy, unless your digestion is perfect. The temptation to use the stomach as a sort of prayer rug on Thanksgiving Day is universal, and that has its disadvantages—then you are likely to figure up the cost and wonder why it is that barnyard fowls should be higher than mallard duck and why eggs and butter and even milk are trying so hard to keep up the nation's reputation for prosperity. But I say, forget it, and be thankful that you are living on the footstool and lunching at Lehnhardt's, where indigestion is unknown.

CRIPPLE CREEK JURIST POINTS OUT GRAVE DANGERS TO SCHOOL CHILDREN.

Investigation Proved the Lads and Lasses of the City Practiced Social Evil.

CRIPPLE CREEK, Colo., Nov. 30.—County Judge T. H. Thomas, appalled by the conditions existing among the school children of the Cripple Creek district, issued a call after a conference with Superintendent of Schools W. M. Shafer, which was directed to all persons interested in promoting the moral welfare of the children of the district, their parents, teachers, ministers and public officials, asking that they co-operate in a plan to frustrate the movement.

In his capacity as juvenile judge it has developed that the young boys and girls of this district have been practicing the social evil, and the boys have been gambling, attending vaudeville shows, using tobacco, while the girls have roamed the streets and attended dances of a not too moral character.

In response to the call of Judge Thomas, the district courtroom was filled yesterday when the parents, teachers, club women and others interested, and Prof. W. M. Shafer presided. Many soft talks were made, and it was finally resolved that an association should be organized and a committee of ten was appointed to draft suitable by-laws and resolutions to assist the juvenile court and the teachers. These plans will be submitted at a similar meeting to be held later.

As a result of the meeting, Chief of Police John Sharpe, with the sanction of the fire and police board, employed two additional policemen to enforce the curfew law and to keep children off the public streets and from public places.

NEW YORK, Nov. 30.—Joseph Levy, known as the "Duke of Essex Street," won $200 on the re-election of Congressman Goldfogle, and he didn't know what to do with the money, he says, until yesterday, when he called Hyman Rosenschein, known as Rosey, the Lawyer, and president of the Essex Market Bar Association, into his office at No 62 Essex street, and said:

"Mr. Rosenschein, I want you to call a meeting of the Essex Market Bar Association to announce that every man who will do me the favor to get married before Thanksgiving will get from me on Thanksgiving Day, a big, fat, juicy turkey." That's what the Duke is going to do with the money he's won on election.

The "Duke" married his first couple last evening when he united Miss Sarah Greenburg to Charles Wirshau.

WHOLE CITY STOPS ALL KISSING

MALDEN, Mass., Nov. 30.—Kissing games are under the ban of diphtheria, which has already caused the death of two school children and the illness of half a dozen others. As the cause of the spread of the disease was said to be the osculatory games indulged in by the children, the school committee and the superintendent of schools have ordered such sport to cease.

"The kissing must stop," declared Superintendent Harvey. "I do not approve of it under any circumstances." This rule applies to the high school lads and lassies, who, it is alleged, are by no means adverse to indulging in "Postoffice," "Red Riding Hood" and other osculatory pastimes.

As a result of the epidemic, the Coverly school has been closed by order of the authorities.

WOMAN, STAY AT HOME! HETTY GREEN ADVISES

Just Sit by the Fireside and Say "Yes, Dear," to Your Husband.

BOSTON, Nov. 30.—Hetty Green, who is living here because it is cheaper to board in Boston than to keep house in Bellows Falls, Vt., has been interviewed again.

Attempts to induce her to talk about politics and the recent elections were fruitless. But she was as voluble as a whole sewing circle on the subject of her lawsuits, past and present.

How she licked this lawyer, and how she made that one come to time, how she got the best of a big insurance company that tried to "do" her, how she got even with a Massachusetts judge—all this flowed in a swift stream of animated talk, with ripples of smiles and bubbles of laughter.

"What do you think of the New York election?" asked the reporter.

"I don't think anything."

"Well, what's your opinion of Hearst, then?"

"Hearst? I don't know anything about him, but I don't want to know anything. Women haven't any head for such things. A woman ought to stay at home and look after the house. The happiest woman is the one who sits by the fireside and says 'Yes, dear,' to every stupid remark her husband makes.

"I think women ought to have the right to vote, but they won't let us, and I submit. I'm a Quaker, and I believe in keeping the Ten Commandments and the Golden Rule."

CONVICT IS RELEASED TO GO TO FUNERAL

Colorado Trusts Prisoner to Attend the Last Rites Over Daughter's Remains.

DENVER, Colo., Nov. 30.—The faith of the state in the honor of a man—even a prisoner—is a little story that ought to reach the heart of every parent.

D. A. Patterson, a convicted prisoner in the Canon City penitentiary, arrived in Denver to attend the funeral of his youngest daughter, a pretty girl of 14 years. Four months ago she was placed in the Girls' Industrial school, near Morrison, and there she died.

Her young life blighted by the disgrace that she felt, and the sighs of her mother ringing constantly in her ears the girl had suffered mental anguish for almost a year. Perhaps she fell into bad company because she was weary of life as she had learned to know it, or perhaps she lost hope in herself. Anyway, she was forced to be a companion of the wild, untamed girls who are held prisoners in the industrial school.

Recently the little girl became ill at the school, and she was given cursory attention. The next morning she was worse, and a physician was summoned from Littleton. He diagonesd the illness as peritonitis, and a trained nurse was called in to assist.

It was not until two days later at 4 o'clock that the mother was found at her room in the house at 704 Twenty-first street, and notified of her daughter's illness. Almost frantic with grief, the mother took her children, hired a livery rig, and drove full speed to the Girls' home, a distance of about fifteen miles. She arrived at 7. The child was unconscious, and the mother was compelled to watch her in silence.

About 11 o'clock Tessie looked up at her mother. She was thoroughly awake.

"I had a dream about you last night, mamma," she said, with a smile. "And I dreamt about my new dress, too." Then the little wasted form lay in unconsciousness a while.

"Then, a little later, she looked up again. "There's going to be a storm, mamma," she whispered. "I can hear the thunder and the wind."

That was all. With a long, shuddering sigh, the breath left the little body.

The heartbroken mother petitioned the governor to liberate her husband long enough to permit him to come to Denver and look on the cold face of his daughter.

Warden Cleghorn trusted D. A. Patterson. He consented, and the prisoner left the penitentiary last night. Although a prison official came with him on the train, it was a mere formality, and Patterson is under practically no surveillance.

The body of the child will be taken to California by the mother and her sons, one of whom is expected in Denver from Los Angeles.

IRE OF PUPILS IS RAISED BY SEPARATION

LADS AND LASSIES OF NEBRASKA UNIVERSITY RESENT ORDER.

Juniors and Seniors Join in Defense of the Personal Liberty.

LINCOLN, Neb., Nov. 30.—"Segregation of the sexes" does not meet with the approval of Nebraska University students.

Chancellor Andrews having announced that hereafter men and women students of the university cannot lodge under the same roof, the junior and senior classes, comprising hundreds of students, met and adopted resolutions declaring this rule to be a reflection upon the morals of the students and an infringement of their personal liberty, and if an attempt is made to enforce it, that they will refuse to attend the classes.

Indignation and resentment run high among students of both sexes, and serious trouble is feared. Matters were brought to a crisis when Chancellor Andrews told H. E. McComb and Dirk P. DeYoung, both seniors, and young men of excellent standing, that unless they moved from a house in which young women students lodged they would be suspended from the university.

The young men had received hints to move before the chancellor issued this ultimatum, but had not acted upon them. The chancellor declares the rule segregating the sexes will be enforced.

MRS. ROOSEVELT HAD ONE TRUNK

She Carries Her Needs for a Month In a Single Case.

When Mrs. Roosevelt departed for Panama and the West Indian isles, all her wearing apparel was contained in three medium-sized trunks. When the Governor General of Canada and Lady Minto came to Washington a few years ago to make a week's visit to the White House and the British embassy, their luggage consisted of ten trunks and three hampers big as piano boxes. The President's wife can get all her needs for a month's outing in one trunk and a fair-sized suit case. Mrs. Roosevelt rarely makes many changes in the course of the day and she thinks that three evening gowns are sufficient even for the most fastidious. She invariably dons black cloth in the mornings, when she is traveling and with it she wears a soft felt hat with trimings in the prevailing fashion. For luncheon, she has a variety of soft silks adorned with lace, and this serves for afternoon tea, as well as for the promenade. Mrs. Roosevelt never appears in the accepted style of evening dress. Sometimes the corsage of her gowns is cut V-shaped and filled with lace and if the waist is sleeveless, long gloves cover every part of her arms.

GIRLS OF U. S. CHARM ROYALTY

Society of American Girls Is Sought by Briton's Princesses.

LONDON, Nov. 30.—Like her sister, the future Queen of Sweden, Princess Patricia of Connaught shows a marked preference for the society of American girls, and is never so happy as when entertaining them. She is arranging an immense New Year party of young people at Bagshot Park, and has already invited her four dearest girl friends—Miss Nellie Post, daughter of Lady Barrymore; Miss Clare Frewen, niece of Lady Randolph Churchill; Miss Breese and Miss Jean Reid. They will go as Princess Patricia's guests for a week, and during that time a couple of dances for the young people will be given by the Duke and Duchess of Connaught.

Princess Patricia is in constant correspondence with these girls, and frequently exchanged picture postcards with them when she was abroad last year.

When her sister, Princess Margaret, married the Swedish Crown Prince's eldest son, it was remarked that the only girls invited to witness the wedding at Windsor were these four American girls. This fact was generally commented upon at the time, and there was great jealousy among society girls at the preference shown. Miss Eloise Breese is now the wife of Lord Willoughby de Broke.

Mrs. Gerard A. Lawther, who was Miss Alice Blight of Philadelphia, and who may be hostess of the British Embassy at Washington, her husband being mentioned as probable successor to Sir Mortimer Durand.

JUVENILE CRIME IS WOMAN'S MAIN STUDY

Former School Teacher Spends Her Inheritance in Favor of Wayward Youths.

KANSAS CITY, Mo., Nov. 30.—An interested watcher of the proceedings of the juvenile court recently was Miss M. F. Flanders of Milwaukee, who is studying sociological conditions. Miss Flanders was formerly a school teacher in Milwaukee. She received an inheritance which enabled her to retire and devote her time to investigation and study. She will continue her investigation in Denver and will then write a report for the Women's School Alliance and the Children's Betterment League of Milwaukee.

"You need a truancy farm," said Miss Flanders to Judge McCune, "where you could send some of these boys."

Judge McCune agreed with Miss Flanders, and said something probably would be done along that line later. He told her of the building of the new detention home."

"In Wisconsin we have industrial schools for boys and girls, a dependent home, a reformatory and a farm school," said Miss Flanders. "I like the way Judge McCune conducts his court, and it is an improvement over the Milwaukee system. In that city a juvenile court session resembles a regular criminal trial. The judge sits back of his bench and lawyers fight out the case in front. I see that Judge McCune gets right down among children, parents, lawyers, and all and talks to them."

ADVICE TO BAD BOYS

Miss Anna Gilday, a teacher in the Manual Training High school, accompanied Miss Flanders. Miss Gilday has attended several sessions of the court and has also investigated conditions in "Little Italy," at the Institutional church, the Franklin Institute, and the Helping Hand.

"If the curfew law was strictly enforced I don't believe the juvenile court would have so many cases," said Miss Gilday.

Giving advice to wayward children and their parents consumed much of the time of Judge McCune. An early case was that of a 9-year-old girl who had been playing truant. It developed from the father's testimony that the family was living in a dark, unhealthy basement, and that the mother was in ill health.

"I'm informed you're one of the best housekeepers in our city," said Judge McCune. "Move out of that basement and get a place where you can all keep well. And you must keep the girl in school."

One 15-year-old boy was before the court for the first time. His father said he kept twenty boarders, and employed the boy until 2 o'clock every afternoon doing chores around the house.

"Then you turn him loose on the street," said the judge. "That would ruin any boy. I'll adjudge Frank a ward of this court and he must either go to school or go to work. And he can't work for you."

"I've done everything I can for my boy," said the father of an 11-year-old boy. The boy had been picked up after he had been missing from school several days. He hung his head when the judge questioned him. The father said he was negotiating for a farm where he could take his family.

A PAROLE FOR THIS BOY.

"I'll send the boy to the reform school at Boonville for two years," said Judge McCune. "When you get your farm I'll help you get the boy out."

The case of a 13-year-old boy was a cause of much worry for the judge. The boy's father, a prosperous appearing restaurant man, was in court accompanied by his wife, who wept when the judge asked her about the boy.

"He's the worst youngster I ever had to contend with," said K. D. Thompson, a truant officer. "He fought me for two miles. He's been in the truant school and he nearly broke it up. He's unruly and insolent, and called me all sorts of names."

The father admitted that the boy could not be defended very much. His mother had no control over him. Judge McCune asked the boy what he thought about it.

"I'd just like to say I'd like to have one more chance," said the boy. "I'll do better."

The boy's tone was sincere.

"I'm for giving him another chance," said J. B. Stacey, clerk of the court.

Judge McCune finally decided to sentence the boy to four years in the reform school and let him return to the Yeager school under parole.

DO NOT STOP COURTING, HE SAYS

COLORADO LAWYER ADVISES COUPLES TO CONTINUE WOOING AFTER MARRIAGE.

Attorney Believes Divorce Reform Will Be Attained In Time.

DENVER, Colo., Nov. 30.—"If a man sends his wife flowers and candy and pays her little attentions of the sort, no other man will—she won't let him; but if a husband cares little for such favors he need not be altogether surprised if someone else come between."

Attorney John A. Deweese, one of the delegates from Colorado to the national divorce congress, in Philadelphia, is an enthusiastic supporter of a uniform divorce law.

"I am somewhat of an individualist, myself," he said. "I believe that divorce should be obtainable on few reasons, and should be easy to secure when these reasons exist."

"It is going to take a long time, but in the end a genuine reform will be effected. Divorce is too frequent in this country today. The idea of such a thing as non-support being possible! A man should prefer to be convicted for any crime other than that, and if his wife is given a divorce on that ground he should be ashamed to the end of his days.

"The happy medium in a divorce law is one that will discourage it, but at the same time make it possible if necessity demands it. Now, it is going to be hard to bring all the states together on a national law. South Carolina has no divorce, while in Illinois and Dakota it is an easy matter. In Massachusetts also it is comparatively hard. It is easy to realize the difficulty that the congress confronts. After deciding upon a law it must present it to every state, which may or may not approve it when it comes to the legislature, and the result is that delays of all kinds will intervene."

COOKS MUST BE WIZARDS

Magicians of the Kitchen Are Required to Play Queer Tricks.

PARIS, Nov. 30.—A cook nowadays must be more than a chemist; he must be a magician. In the cheap restaurants every cook must know all about antiseptics so that he can "rejuvenate" aged meats with boric acid, sulphuric acid and such reagents.

The chef of a celebrated restaurant held an examination of apprentices, each ambitious to be a cook under him. To each applicant was given a first-class menu and unlimited quantities of plaice, veal and rabbit. The problem was to resolve those three cheap elements into all the costly dishes on the menu.

"Presto! change!" cried the cooks. The plaice became fried sole or filet of turbot, or, when colored with cochineal, salmon; or, with a spicy sauce, fresh cod a la Portugaise. The cooks looked at the veals, exclaimed "Abracadabra!" and lo! it was converted into spring lamb or sweetbreads.

Naturally the rabbit was easily turned into hare. But only a magician of the kitchen could make it reappear as salmis of game or chicken a la Marengo.

BABY'S SKIN CHANGES COLOR

WABASH, Ind., Nov. 30.—A peculiar discoloration which made its appearance on the face and neck of the five-months-old son of Mrs. Emily Hightly is puzzling the physicians here. Two days after the birth of the child a small red spot appeared on the left side of its face. Gradually the spot enlarged until now it completely covers the left side of the chin, face and neck, making that side appear like that of an Indian. The baby is otherwise perfectly healthy.

Physicians who have seen the child agree that the change will continue over the body unless an operation to check it can be made.

Postmaster Robbed.

G. W. Fouts, Postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters; which cured me and have kept me well for eleven years." Sure cure for Biliousness, Neuralgia, Weakness and all Stomach, Liver, Kidney and Bladder derangements. A wonderful Tonic. At Osgood Brothers' Drug stores. 50 cents.

CORONER INVESTIGATES AWFUL TRAIN CRASH

Seven Met Their Death in the Collision Which Killed Railroad President Spencer.

LYNCHBURG, Va., Nov. 30.—An investigation is being made today into the circumstances which led to the wreck of the two Southern Railway trains near here yesterday, resulting in the death of President Spencer of the road and several other passengers and the injuring of several others The death of William Pollard, the porter in President Spencer's car, and J. W. Shaw, the negro fireman, both of whom died in the City Hospital here last night, swelled the death list to seven in all.

County Coroner J. W. Davis is expected to take action on the accident today He arrived at the scene of the wreck yesterday, but finding the bodies already had been removed he deferred action until today.

The escape of A. B. Merrill of New York, private secretary to Mr. Spencer, the only survivor of the party in the private car, save for a porter, was miraculous The injuries he sustained are not serious and he will be able to leave the City Hospital here probably by the first of the week.

Identification was made today of the negro who was killed and his body burned The victim was Benjamin Boswell of Toledo, Ohio, a dining-car man, who was taken aboard Mr. Spencer's car for the trip.

WASHINGTON, Nov. 30.—The bodies of Charles D. Fisher and Frank T Redwood, both of Baltimore, who were killed in the collision at Lawyers, Va., when President Samuel Spencer of the Southern Railway lost his life, were sent to Baltimore early today. Arrangements for the funeral of President Spencer have not been completed, but the burial probably will be held in Washington.

After a conference today with the family, Second Vice-President Finley will announce the arrangements.

D. W. Davis, the telegraph operator who was killed, was frequently detailed to accompany the higher officials of the road on such trips as the one that ended so disastrously yesterday. It is said that when he was notified that he would be expected to accompany President Spencer and party on this occasion, he asked to be relieved, stating that it was the desire of his wife and himself to spend Thanksgiving with her parents at Alexandria, but it could not be arranged.

Superintendent of Transportation Taylor said today that all efforts of the company so far to locate Operator Mattox, who was operating the block signal tower at the entrance of the block in which the accident occurred, had failed Mattox is a native of Sandy Level, Va., and had been in the employ of the company for three years.

NEW YORK, Nov. 30.—News of the terrible death of Samuel Spencer, president of the Southern Railroad, who was killed in a train wreck near Lynchburg, Va., startled his many business associates here. All of them paid glowing tributes to his high qualities as a man and to his wonderful genius as a railroad executive. None of them would discuss the question of his successor. They were so overwhelmed with distress that none of them gave any consideration to the matter.

There will probably be a special meeting of the directors of the Southern road at an early date to take appropriate action on President Spencer's death. A majority of the directors will attend the funeral service.

HAVE TURNED AGAINST SHEA

Three Teamsters Will Turn United States Evidence In Chicago.

CHICAGO, Nov. 30.—The dissensions which for the last year have prevailed in the ranks of the Teamsters' Union here today were carried into the trial of Cornelius P. Shea, who, in company with sixteen other men, is on trial for alleged conspiracy in connection with the great teamster's strike of June, 1905.

Albert Young, former president of the Teamsters Union, William Kelly, business agent of the Coal Teamsters' Union, and William Murphy, said to have been a member of the "wrecking crew" during the strike, withdrew their pleas of not guilty and entered pleas of guilty. All of the men declared their intention of turning State's evidence

The incident caused great excitement in the courtroom and took the other defendants completely by surprise. Shea and Young had for years been close friends and had worked through a number of strikes side by side Since the last convention of the Teamsters' Union, however, they have been opposed to each other.

When court opened today Attorney Leroy Brown, who has not previously appeared in the case, addressed Judge Bail, saying "Your honor, I desire to give notice that I herewith enter my appearance as counsel for the following named defendants in this case. Albert Young, William Kelly and Michael Murphy."

The attorneys for the defense showed their surprise at this announcement and a moment later, when it was announced that all three men desired to enter pleas of guilty, they were for a time taken completely aback. President Shea turned in his chair and stared fiercely at Young, who returned his look with an indifferent stare. The statement was then made by the attorney that his clients would turn State's evidence. The attorneys for the defense then informed the court that they demanded the right of reopening the examination of the jurors in order to question the jurors regarding their acquaintance with Attorney Brown The court overruled this and an exception was taken by the defense A recess until this afternoon was requested by the defense and granted

The trouble between Albert Young and Cornelius P Shea resulted from the effort made by the former to secure the presidency of the International Teamstrs' Union. He represented an element in the union that was opposed to Shea and dissatisfied with his methods of conducting the Chicago strike. Shea was re-elected and Young then organized a rival organization which is known as the United Teamsters of America

Since the creation of the latter body there has been bitter strife between teamsters and assaults and fights on the streets have occurred frequently.

LONG A RAILLESS RAILWAY.

Roadbed Graded Fifty Years Ago on Which No Iron Has Ever Been Laid.

There lies between Kansas City and St. Joseph sixty miles or more of the graded roadbed of a railroad which got no further than the building of the bed The grading was done fifty years ago. In all that time the Missouri farmers to whom the roadbed reverted have never plowed it up and planted it to crops. Acre after acre of ground is unused because they would not take the trouble to plow down the five-foot ridge. Thousands of dollars have gone to waste through this roadbed being unutilized by the owners of the land on which it lies. In 1858 the Des Moines & Parkville railroad was started at Parkville, Mo., to run to Des Moines, Ia. A man named shoemaker came out West backed by Eastern capitalists to oversee the construction of the road. Shoemaker had plenty of money of his own, every cent of which he buried in the roadbed The war came on before the ties were laid and the Eastern capitalists decided that a railroad would never be a success that connected the North and the South, and abandoned the project Shoemaker was penniless as a result of the venture. He went back East and has never returned to this country, so far as known. The Parkville & Des Moines railroad was forgotten at the close of the war and no further work was done on it. Miles and miles of the deserted roadbed are visible from the Grand Island track, midway between Kansas City and St. Joseph. From Trimble southward the Grand Island track and the roadbed run parallel for many miles.

'STRONGHEART' IS AMERICAN

Its Dramatic Situations and Love Passages Are Very Well Rendered.

Do you like to see a play with strong dramatic situations, with fine love passages well rendered, a fine company of players, proper scenic properties, a play fully and wholly American, one that has had a long and marvelously successful run? See "Strongheart."

In Robert Edeson, the star who plays the title role you will witness a "good Indian," one you will recollect whenever you see a native redman

All the women of the cast are pretty and as a whole "Strongheart" has stormed Oakland, and is the success of the winter

THE BELL THEATER.

Manager Gus Cohn of the Bell theater not only raised his voice in prayer yesterday, thanking Jehovah for his blessings gone before, he likewise offered thanks for the best and most profitable house known to the playhouse since the origin of the Bell Fully $100 more was shown by the holiday's receipts than the best day heretofore evidenced.

If the performers were equal to the task three more performances could have been given. It would require that number of appearances to satisfy the crush of people that clamored for admittance.

The show is worthy of the throng and the cast would grace a more pretentious stage with ease.

More Trained Nurses Needed.

Such is the dearth of trained nurses in the national capital that certain social leaders are going to take the situation in hand and endeavor to interest intelligent young women in that profession In England it is customary for women of good social position to choose that profession Doctors complain that no sooner do their nurses attain skill that they are lured into matrimony, usually by other doctors In army and navy circles girls have studied nursing. The daughters of Rear Admiral Evans donned the white cap and made creditable records in the Spanish American war. This winter an effort will be made to have a training school endowed in connection with one of the Washington hospitals—From the New York Press.

Our Holiday Announcement

We wish to announce to the Public that our store will remain open evenings until nine o'clock beginning December 1st and to continue till Christmas. Our reason for doing this is to give those who are busy during the day time to investigate our goods at their leisure. We have found it necessary of late to make many evening appointments for people who had rather make a selection of a piano when they have ample time, and when all who are interested in the purchase can be present.

We now have a complete line of Knabe Grands, Uprights, Combination Pianos, and all the different styles of the following makes:

Mason & Hamlin, Hardman, Conover, Packard, Price & Teeple, Ludwig, Harrington, Kingsbury and others. Don't be stingy callers at our house as we are always willing to put our time against yours for the benefit of your enlightenment. We do not claim that we are going to give you a piano for the asking, nor to sell you one without a profit, as that would be an insult to your better judgment. We do not carry a line of pianos that have to be sold to ignorant or unwary people, as we cater to a class who are educated in music and well informed on the different makes of pianos. Of course, we always have some cheap pianos, which we sell for practice purposes, always with the privilege of exchanging later for a better one and the full amount applied thereon. We are positive if you would consult any dealer who has a stock, such as we, he would also advise you to buy the best as it is cheapest in the end. Now we do not wish to infer that we have a monopoly on all of the good pianos, as that would not be fair to some of our competitors, who also have good goods, but we do claim to have a more complete line and more different agencies of high grade pianos than any other house on the Coast, and if you investigate our line you will certainly agree with us. We have found by experience that the Oakland people appreciate purchasing from a thoroughly reliable house who do not have to hold out false inducements to obtain patronage.

We are now giving a sale on slightly used and broken lines of pianos that are not regularly carried by us, which we will discount from 10 per cent to 20 per cent from their regular prices. It is a good time to purchase. We will be glad to see you any time.

ANGRY GHETTO WOMEN BATTLE WITH BUTCHERS

Price of Meat Raised by the Carvers Causes a Riot in the Hebrew District.

NEW YORK, Nov. 30.—A war on the butchers of the East Side Ghetto has been started by women residents of the district as a protest against the high price of meat. Recently the butchers put up the price of meat two cents a pound, and in verbal explanation of the act said the packers had again raised the prices to the butchers, and they had to follow suit.

It is an easy matter to create trouble among the excitable residents of the Ghetto, and the action of the butchers was quickly resented. Housewives met on the streets and discussed the subject, and from this it was but a step to form indignation meetings. Such a meeting was held in the home of Mrs. Esther Delbowsky on East Fourth street. Nearly fifty women were present. Mrs. Delbowsky told the women she thought the prices of meat were outrageous and advised a strike against the butchers.

Mrs. Debowsky and Mrs. Rebecca Rezeneck went to a meat shop in the neighborhood as pickets, and immediately began addressing a large company of women customers, advising them to boycott the butchers. As the women cheered, the butchers became excited and tried to disperse them. A battle followed, in which clubs were used and various missiles thrown.

Mrs. Debowsky and Mrs. Rozeneck were struck in the face with missiles and both received serious cuts, as well as other injuries. Several other women were struck by stones and clubs. The police were called, but made no arrests.

There were many small skirmishes in the doorways of many other East side shops. Women with shawls pulled over their faces upset sidewalk stands and broke open crates containing live chickens.

Mrs. Rosa Menson, during a meat shop commotion on Madison street, addressed a crowd.

"Look," she said, "what fools we are to buy meat when fish is cheaper. Fish is better than meat. It is more nourishing."

In Second street, Irvington, Forsythe and Delancey streets, groups of women stood in front of the butcher shops declaring they would boycott the butchers until prices came down. The women would not permit anyone to enter the shops. As night drew on they marched in a body to the offices of a Jewish newspaper and there asked for newspaper aid in their fight.

Fearing a repetition of the meat riots of five years ago, when much property was destroyed, the butchers have begun organizing. Louis Kirsch, president of the organization, declares the 4000 meat markets on the East side will be closed rather than attempt to combat a strike against them by the women of the tenements.

As a result of the war on meat, the fishmongers beneath the Williamsburg bridge and along Delancey street did a rushing business yesterday.

FALLING GLASS HURTS FIREMEN

Fierce Blaze Works $7000 Damage to Pittsburg Manufacturing Concern.

PITTSBURG, Nov. 30.—Fire of unknown origin broke out early today in the stationary department of the Ruud Manufacturing company at 340 Second avenue and damaged the plant to the extent of several thousand dollars.

The blaze was so fierce for a time that it threatened the adjoining structures, and all the engines in the downtown district were summoned.

Several firemen were slightly hurt by falling glass.

PUPILS' NEEDS THEIR SUBJECT

Educators Gather at Social Education Congress In Boston.

BOSTON, Nov. 30.—The Social Education Congress, which aims to draw wider attention to the need of training youth to meet the new demands arising from the complexities of modern life, opened here today. Many eminent specialists are here to discuss the new needs.

What was expected to be one of the features of the congress was the mass meeting at Tremont temple on the subject of "Education for Citizenship," which was scheduled for the afternoon. At this gathering Governor Guild, Mayor Fitzgerald, President Eliot of Harvard University, George H. Martin, State Secretary of Education and President David Starr Jordan of Leland Stanford University on "The Young Man of the Twentieth Century," were announced as the speakers.

ROUGH RIDER GETS A PLUM

President Appoints John I. McIlhenny of Louisiana Civil Service Commissioner.

WASHINGTON, Nov. 30.—The President today announced the appointment of John I. McIlhenny of Louisiana to fill the vacancy on the Civil Service Commission caused by the promotion of A. W. Cooley to be Assistant Attorney General of the Department of Justice. Mr. McIlhenny was a member of the regiment of Rough Riders of which President Roosevelt was colonel during the Spanish war.

Gratitude.

The dark lantern flashed through the flat. Then came the gleam of a revolver.

"Hands up!" hissed the head of the family. "You are a burglar?"

"Y-yes," gasped the intruder as he faced the cold steel.

"What have you stolen?"

"Your wife's pug dog."

"H'm! Er—if that't all you may sneak out quietly."

"And your mother-in-law's parrot."

"You don't say! Well, here is some loose change."

"And your daughter's phonograph."

"Good! Here's some more loose change."

"What? Great Scott, man, come out to the ice chest and I'll open a cold bottle. There certainly will be some peace in this flat from now on."—Chicago News.

CHIEF WANTS 2 VICE-ADMIRALS

Head of Bureau of Navigation Favors Revival of Old Grade.

WASHINGTON, Nov. 30.—The grade of Vice-Admiral will be revived in the navy if the Navy Department adopts the recommendation made by Rear-Admiral Converse, chief of the Bureau of Navigation, in his annual report. He says that at least two vice-admiralships should be created for the commanders of the Atlantic and Asiatic fleets, who will soon have under them subordinate rear-admirals and a large number of ships.

BABY WAS THROWN OUT

Infant Found on Rocks Below Railroad Track—Was Alive When It Struck.

GLENWOOD SPRINGS, Colo., Nov. 29.—From one of the four trains which pass through here during the night some person, as yet unknown, dropped a newly-born baby boy, whose life was crushed out on the jagged rocks below the roadbed.

Fred Swartz, who had gone down to the bank of the Grand river, near Blake avenue, in a search of stone to repair some masonry at his home, made the grewsome discovery yesterday. The baby's body, entirely nude, was found lying on the rocks just a few feet from the edge of the river and less than fifty yards east of the railway station.

According to Dr. L. G. Clark, coroner of Garfield county, who was called to view the body, the child had not been born more than thirty minutes and was alive when it was thrown to the rocks. It is believed from the condition of the body that it was thrown there Tuesday night. But for Mr. Swartz' chance visit to the river bank it might not have been discovered for weeks, as the railroad tracks are fifteen or twenty feet above the river, topped with a stone wall.

Coroner Clark believes that the baby was thrown from one of the D. & R. G. passenger trains passing through here, and it is probable that the child was born in a sleeping barth and the mother succeeded in raising one of the windows and throwing the infant from the train.

Another theory is that the baby was born in another town and an interested person took it in a grip on to the train and then threw it from a window as soon as a good opportunity presented itself. The fact that from appearances the baby was alive when it struck the rocks supports the belief that it was born on a train, as its cries, if brought on to the train from another town, would have attracted the attention of passengers and trainmen. An investigation is now being conducted, but there are few chances that the mystery will ever be cleared up.

REAPS HER RICH REWARD

Constant Reader of Newspapers Garners Valuable Information From Home Journal.

TOWANDA, Pa., Nov. 29.—Because she has been a steady and careful reader of her home paper, Mrs. Ernest Joralman, of Troy, Bradford county, has learned that a gold dollar she has and which she has been using as a stickpin is worth more than $100.

The other day she was reading in the paper a description by a coin expert of the famous $1 gold pieces minted at the Charlotte mint in 1854. Only four were minted, and all four are now of such rare value that there is a standing offer for each.

Mrs. Joralman's coin, which answers the description in every particular, was given to her eight years ago by a relative, who had it for a long time.

P. O. BOX RATES TO BE UNIFORM

Order Is Issued Which Will Correct Unequalities of Rentals.

WASHINGTON, Nov. 30.—An order has been issued by the First Assistant Postmaster General looking toward the adoption of uniform rates of rent for boxes of postoffices. The revised rates will affect every postoffice in the United States.

It is not the intention to make an increase in box rents. While some rates will be raised, others will be considerably lowered, the aim being to correct inequalities.

THE ATLANTIC UNION.

Professor Muirhead of Harvard is taking an active interest in this country in the furtherance of Lord Monkwell's Atlantic Union, formed to promote friendly and social relations between American and British statesmen, artists, authors and educators. Among the council of this union are "Ian MacLaren," Conan Doyle, Lord Coleridge, the Earl of Aberdeen, H. A. Jones, Anthony Hope, the Earl of Elgin and many other British notables. Sir Walter Besant really founded the union.

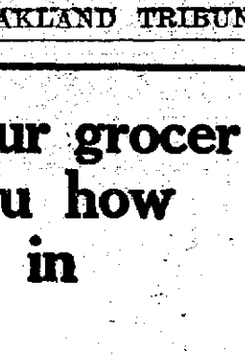
Tell us how much Lard your grocer sells and we will tell you how much indigestion is in the neighborhood.

Lard is made from hog-fat and is bound to be greasy and indigestible—sometimes absolutely unhealthy. There isn't an ounce of hog-fat in *Cottolene*. Its basis is just pure, refined Cotton seed oil, which is thoroughly digestible and healthful.

The stomach of the average American has been subjected to lard-soaked food for years simply because people have not known the dangers of the "lard habit." *Cottolene* is so much superior to lard, both as to the palatability of the food it produces and its healthful qualities, that it will surely supplant lard for shortening and frying purposes wherever its virtues are known. Give your poor stomach a chance—divorce yourself from lard, and use *Cottolene*.

Cottolene is made by a cleanly, hygienic, sanitary process, which insures its purity. It is, moreover, healthful, because its chief ingredient is a healthful product. It will aid rather than retard digestion. The housewife who pays any attention to hygienic cooking will use *Cottolene* in place of lard every time.



COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

LEADING SPECIALIST FOR WOMEN.
Ladies, if you are suffering from any ailment peculiar to your sex, worried about your condition and need help, consult this widely known specialist for the following plausible reasons:

1—He is a competent, well-trained physician and surgeon, and truly the only regularly graduated specialist for women advertising.

2—With qualifications recognized by the highest medical authority, and well-known as a consulting gynaecologist and obstetrician with his painless and harmless methods known to no physician but himself. He is able to give relief at once, without disappointment, needless drugs, operations or detention from your occupation.

3—His broad experience in the exclusive treatment of women; his 19 years of unlimited success with the most obscure and obstinate cases where all others have failed; his entire new specially constructed building, equipped with the latest inventions and modern appliances essential for the proper investigation and intelligent treatment of his patients, makes him the safest and surest man to consult when you need help.

Throw aside prejudice. The best is always the cheapest. Why suffer pain and anxiety by consulting quacks, self-styled specialists and those of small experience, when you may have the advice of a man rich in experience and eminent in the profession, absolutely free of charge.

His fees are moderate and you may safely intrust your case in his care, and be assured of prompt and happy results. Private sanitarium when required.
Hours, 9 a. m. to 9 p. m. Open Sundays.

REAL ESTATE.

A. J. Snyder's Piedmont Terrace

BY THE LAKE

Positively the most beautiful residence lots ever placed on the market at such reasonable prices.

$800 to $1750 per Lot

These prices include all grading, macadamizing, concrete gutters, concrete curbing, terraced sidewalks and perfect sewering.

This magnificent tract of rolling sightly lots offers the most attractive view of glimmering Lake Merritt and the bay from one side and the green clad, home-dotted Piedmont hills on the other.

Rising as it does to an elevation of 145 feet insures perfect dwrainage and divided into large deep lots, many of them 150 feet, together with restrictions as to buildings, insures a surrounding of select homes.

Transportation by the Oakland Traction Company is only two blocks distant and to be extended along the boulevard adjoining the tract. The Key Route will pass within two blocks of "A. J Snyder's Piedmont Terrace by the Lake."

Terms of sale are ¼ cash and $25 per month, including interest.

CHINESE GAMBLERS FORFEIT BAIL

Yesterday was an unlucky day for thirteen Chinamen, who fell into the meshes of the law and were charged with gambling. A raid was conducted by the police on a den at 357 Seventh street. The thirteen Chinamen were taken to the police station. Ah Fong and Ah Louie were charged with being gamekeepers and had to deposit $25 each for their release. The remainder furnished $10 bail each. The money was forfeited this morning in department two of the police court.

RELEASED, SHE FLEES FROM COURT

Her liberty was so fascinating to Goldie Lamont, a young woman from San Jose, who was arrested last night for being intoxicated, that when her release was given her by Police Judge Smith this morning, she made a dash for the door and ran out of the cityhall with the utmost rapidity.

CHICAGO WHEAT.

CHICAGO, Nov. 30.—The wheat market today opened steady on continued realizing sales in the December option. There was also considerable selling by commission houses, who changed from December to May. Argentine shipments were much smaller last week than usual and this had a steadying effect on the market. May wheat opened a shade lower to a shade higher at 78c to 78⅛c and sold at 77⅞c.

The corn market was steady, principally on covering by shorts in the December option. May opened ¼c higher at 44c and sold at 43⅞c.

The oats market was quiet and steady. May opened a shade lower to a shade higher at 41⅞c to 42c, and for a time held within these figures.

The provisions market was steady, but trade was light. January pork opened 2½c lower at $14.52½; lard was down a shade at $8.15, and ribs were a shade lower to a shade higher at $7.75@7.87½.

The close was firm with May a shade higher, at 78⅛c.

LAD IS MISSING SINCE OCTOBER

Sixteen-year-old Lawrence Felix McDonald left his home at East Twenty-seventh street and Twenty-fifth avenue last October and has not been seen since. His anxious mother Mrs. A. McDonald, has asked the local police to find her son. He is of slim build, with brown hair and a fair complexion. The youth was poorly dressed when he left home.

WALL STREET STOCKS.

NEW YORK, Nov. 30.—The improvement in the money situation in London had a good effect on sentiment here and opening prices were generally higher than the closing level on Wednesday. Among the exceptions were Southern Railway, which was depressed to the extent of ½ on account of the death of its president. The preferred stock was also down ½. Anaconda made a gain of 1¾, Kansas & Texas, Mexican Central and Hide and Leather preferred about a point, and Reading, Wabash and Amalgamated Copper small fractions.

Business was on a small scale.

Moderate offerings of St. Paul, Union Pacific and Reading, which carried them a large fraction below Wednesday's closing, discouraged buying of other stocks and the entire list became heavy. Very little stocks, however, changed hands at any point, trading being restricted by exigencies on the money market, and the usual curtailment of business after a holiday.

Union Pacific weakened ⅞ and Smelting ¼, while Great Northern preferred and Interborough Metropolitan gained 1 and Wells Fargo 4 points.

Prices sagged unchecked by the aggressive strength of the Hill stocks. A 10 per cent money rate was a depressing factor. Smelting fell 2½ and St. Paul, Reading, St. Louis-Southwestern and Denver & Rio Grande 1. Great Northern preferred advanced 2¾, Northern Pacific ¾, Illinois Central 1¾. Pullman sold at 196 with the dividend of 36 per cent on the common stock, compared with 236 on Wednesday.

Bonds were irregular.

Great Northern preferred gained 2½. Tennessee Coal reacted 4 points.

Just before the close of the stock market money was quoted at 27 per cent.

The market closed dull and firm.

Money went to 27 per cent in the final hour, but prices of stocks yielded only slightly and recovered again.

SYNDICATE COMPLETED.

LONDON, Nov. 30.—The syndicate planned by Speyer & Co. of New York, Speyer Brothers of this city, and the Hongkong and Shanghai Bank of London for the reconstruction of the Manila Railway company and an extension of its lines, was completed today. The capital, $25,000,000, was over-subscribed.

MANSLAUGHTER CASE AGAIN DELAYED

Because the complaining witness is still in the County Infirmary, recovering from the injuries he received by being struck by an automobile on the Oakland mole a month ago, the preliminary examination of Roy Simon, charged with manslaughter by Manuel de Souza, was not held in police court one this morning. The hearing was postponed until December 22, at which time it is thought de Souza will be able to testify. It is alleged that Simon ran over Souza and his friend, Anton Riberoe, who died of his injuries. Simon is charged with having caused the latter's death.

WORK IN CALAMITY CAUSED HIS DEATH

Over exertion during the days of the great San Francisco fire was the cause of the death Wednesday of Julius Willigrod, for many years chief clerk in the claims department of the Southern Pacific Company. Willigrod passed away at his home in this city.

Willigrod was a volunteer, and assisted the firemen day and night during the conflagration. He was among those who finally conquered the flames at Van Ness avenue. Deceased was a member of the Olympic club, and a well-known hunter and a lover of outdoor sports. He was 45 years old.

AGED WOMAN IS CLAIMED BY DEATH

Mrs. Alpha McCuen passed away yesterday at her home at 3215 Putman street, Fruitvale, after a prolonged illness. Deceased was 69 years of age, and was a native of New York. Mrs. McCuen is survived by a husband, Nelson McCuen, and four sons—G. H., A. R., F. A. and A. N. McCuen.

REPORTS LOSS OF WATCH AND CHAIN

J. B. Dubois of the Clarendon house left his watch and chain in his office yesterday and in his absence the timepiece was stolen. Dubois has reported his loss to the police.

DENIES THEFT OF AN OVERCOAT

A plea of not guilty was entered in Police Judge Samuel's court this morning by Herbert Berger, who is charged with petit larceny by Charles Scholz. His trial was set for December 6. It is alleged Berger stole a $20 overcoat from Scholz.

BUSY GOLDFIELD MINES FURNISH NEW STRIKES

MOHAWK-JUMBO LEASE IN LUCK WITH ITS HOIST.

Notwithstanding the congested condition of the railways, the management of the Mohawk-Jumbo Lease company has succeeded in getting its 75-horsepower double drum electric hoist into Goldfield and under process of installation on its block of ground within fourteen days of the date of its shipment from the manufacturers, Hendrie & Bolthoff, Denver.

The Southern Pacific and Tonopah railroads have, during the past few weeks, reported that the managements find it almost impossible to guarantee to deliver at any specified time and in fact, shipments from both the East and West have been overdue in Goldfield as long as five weeks. The rapidity with which the Mohawk-Jumbo Lease company's hoist came into camp enabled the superintendent of that property to start immediate installation last week. The double compartment shaft has reached the depth of 125 feet and the three shifts of experienced miners are hard at work breaking ground. With the splendid equipment at hand the management of the Mohawk-Jumbo Lease company is warranted in believing that a new record for fast work will be the result of its efforts on this lease, which has life until last of July of the coming year.

THE GOLD BAR FRACTION MINING COMPANY OF GOLDFIELD.

The Evening Fraction, adjoining the Gold Bar, C. O. D., Potlatch, Combination and Blue Bull mines, was sold during the week by Mr. T. E Edwards and associates to Los Angeles capitalists, through the office of George F. von Polenz & Co. The same has been incorporated under the name of the Gold Bar Fraction Mining Company of Goldfield. Among the new owners are Mr. Homer Laughlin, a well-known retired capitalist of Los Angeles; Colonel Stearns, one of the wealthiest mining men of Idaho, and Mr. H. A. Hine, secretary of the Star Drilling Machine company of Akron, O.

The firms of John Donnellan & Co., and George F. von Polenz & Co. are acting as fiscal agents for the new corporation, and have placed a small block of treasury stock on the market.

The sale of the stock has proved a big success, even a larger one than the sale of the treasury stock of the Helena Gold Mining company, which the firm of George F. von Polenz & Co. placed on the market last week. This issue was oversubscribed in a few hours and the stock of the Gold Bar Fraction Mining company has even excelled this record.

GOLDFIELD - BULLFROG RAILROAD BUILDING TO GOLD MOUNTAIN.

The Goldfield & Bullfrog Railroad company, which will complete its line to Bullfrog within the next two months, has started a spur at Thorps Wells to open up the Gold Mountain section. Three miles of track has already been laid and it is expected that the road will reach the Nevada Goldfield Mining company's property within the next two weeks. The building of this spur to the Nevada Goldfield, Nevada Sunshine and Bonnie Claire properties was decided on after a thorough examination of the mines in the Gold Mountain section by President Brock's engineers. As these properties with several others have millions of dollars of ore in sight the construction of the road will add several more large shipping mines to Southern Nevada, and will greatly increase the annual output of the State.

The Nevada Goldfield is constantly working twenty-five men and is developing from the 460-foot level. One large vein has already been cut and drifted on showing three feet of $40 ore, and it is expected that two more will be cut within the next two weeks.

The enormous tonnage already blocked out is sufficient to warrant the construction of reduction plants at Thorp Wells for the lower grade ore, while the high grade ores will be shipped direct to the smelters at Salt Lake City. Mr. Norrington, secretary of the Nevada Goldfield, states that as soon as the road is completed to the mine he will charter a special train and invite the mining men of Goldfield to make a personal examination of the Gold Mountain section.

BALDWIN BROKERAGE COMPANY ENTERS PROMOTION FIELD.

Mr. J. W. Crossley of Philadelphia, treasurer and Eastern representative of the Baldwin Brokerage company of Goldfield, is spending a few days here, studying the mining situation. Mr. Crossley has long occupied a prominent position with the American Tobacco company and has a large list of influential acquaintances. He recently resigned his position to take the management of the Eastern department of the Baldwin Brokerage company.

The Baldwin Brokerage company is comparatively a new Goldfield organization that has recently opened one of the finest suites of brokerage offices in the city of Philadelphia, at the corner of Ninth and Chestnut streets, in the heart of the business center. Mr. O. W. Baldwin, president of the company, has been a resident of Goldfield since May, 1905, and has made a thorough study of all the conditions of Nevada mining interests. The company has been peculiarly fortunate in securing some of the best things in the heart of the phenomenal Goldfield mineral belt, for offering to their Eastern clientage. In the stock of the Smythe-Roberts Leasing and Mining company, as also in the Atlanta, Pride Leasing and Mining company, and the Gold Horn Leasing and Mining company, they will be in position to present to Eastern investors interests in some of the choicest central properties of Goldfield. In choosing this class of properties for its original offerings the company has shown excellent business judgment. The local office is in rooms 6 and 7, Nixon building.

Sun Rises.....7:03 | Sun Sets.....4:52

NOTE—In the above tabulation of tides the daily tides are given in the order of their occurrence, commencing with the early morning tide in the left-hand tide column, and the succeeding tides as they occur. On some there days there are but three tides, the usual fourth tide occurring the following morning.

The column of heights gives the elevation of each tide above or below the plane of Coast Survey Chart Soundings. The numbers are always additive to the chart depths unless preceded by a minus sign or dash (—), when the numbers are subtractive from depths given on the chart.

ARRESTED TRYING TO SELL STOLEN CIGARS

While attempting to sell his illgotten gains, a man giving his name as William Rose was arrested last night at Sixth and Broadway by Policeman Reinhardt. Rose had several boxes of cigars, which he was retailing to pedestrians. Officer Reinhardt took the man into custody and at the police station he told of stealing the cigars from a store on Willow street, between Sixth and Seventh streets, in West Oakland. Rose will be held at the police station, pending the filing of a charge against him.

STORE ROBBED OF CIGARS AND LIQUOR

A bold burglar, who evidently did not have sufficient cigars and good cheer to close his Thanksgiving with, entered the Washington-street store of Theodore Gier some time early this morning, between the hours of one and six o'clock. The thief entered the store through a rear transom. He secured about $50 worth of cigars and liquor. The theft has been reported to the police.

WOULD REMOVE SHIP'S POLICE

Rear Admiral Converse Favors Withdrawal of Marines From Battleships.

WASHINGTON, Nov. 30—Rear Admiral Converse, chief of the bureau of navigation, says, in his annual report, made public today, that it has been a matter of deep consideration to the bureau whether it would not add to the efficiency of the naval service if marines were withdrawn from all battleships. The idea of the bureau is that the bluejackets are drawn from the same class as the marines and are able to efficiently perform the services now assigned to marines It is said that the presence of marines suggests to the enlisted men of the navy that the former are there for police duty and their presence is frequently resented

Admiral Converse says:

"The bureau believes that the withdrawal of marines from ships and the addition of a similar number of bluejackets would add materially to the efficiency of a ship's crew by the increase in the number of bluejackets available for general duties An increased community of interest would result and the removal of discriminations caused by differences of pay and uniform and inequalities in duties and privileges would also do away with an element tending to dissatisfaction

The recognized value of marines for manning the naval bases in our insular possessions and for service as expeditionary forces in emergencies needing a prompt response will perhaps, add weight to the bureau's statement of present conditions

MYSTERY IN MAN'S ABSENCE

A. Schonts Left Home Saturday and Friends Fear Illness.

The strange disappearance of A. Schonts, of 5853 San Pablo avenue, has been reported to the police and anxious relatives have appealed to the authorities to locate the missing man it is said that Schontz is subject to attacks of heart failure and it is feared that he is ill and cannot make his whereabouts known to his people.

Schonts is sixty-five years of age, five feet ten inches in height, weighing 170 pounds, and having chin whiskers and a mustache The last time he was seen, he wore a black suit and a dark overcoat. The missing man left his home last Saturday

SHERIFF GAVE THEM TURKEY

Fine Dinner Served at the County Jail Appreciated by the Prisoners.

It is not likely that the inmates of the County Jail will attempt another get-away in the near future, for they were certainly given a welcome Thanksgiving dinner by Sheriff Frank Barnet It is not a usual affair for the sheriff to entertain the prisoners to a dinner, but the day was observed at the jail, and turkey was served with all the other courses The meal was the best any chef in Oakland is capable of cooking, and when finished, the prisoners thanked the sheriff

FOR BANQUETS ON WARSHIPS

Money Will Be Asked From Congress to Entertain in Other Lands.

WASHINGTON, Nov 30—Congress will be asked by the Bureau of Navigation of the Navy Department to make an appropriation for official entertainments on board vessels when sent to foreign shores It will be argued that in their duty of showing the flag and cultivating friendly and diplomatic relations in foreign countries, officers for the honor of their service spend an appreciable amount of their own pay for entertainments, whose expenses should be borne by the government In other countries an ample appropriation is made for such expenses In ours such provision is seldom made, and only on extraordinary occasions.

$30,000,000 FOR WEBFEET

More Than Twelve Eastern Companies to Invade the Northwest.

PORTLAND, Ore, Nov 30—The consolidation of more than a dozen light, traction and power plants in cities of the Pacific Northwest by Philadelphia capitalists is announced in a dispatch received by the Oregonian

The properties merged under one management have a valuation of $6,000,000 Rhodes Sinkler and Butcher, bankers of Philadelphia, are behind the project Associated with this firm are other Philadelphia capitalists A L Welch of Portland is to be manager of the consolidated properties

The properties so far secured or now held under option are the light and power plants at Eugene, Springfield, Albany, Cottage Grove, Corvallis Seaside, Roseburg, Baker City, Walla Walla, Wash, and Pendleton Electric plants at Dallas and Albany are owned by the promoters of the consolidation, as are also gas plants at North Yakima Wash, and Lewiston, Idaho

Early in 1906 the Clarks and Seligmans of New York and Philadelphia consummated a merger of properties in and around Portland and involved the investment of about $30,000 000

No Phone Orders. None Delivered

From 5 till 9 p. m., if they last.

They are glass nappies. Two of the best patterns ever made. And they are made of a special quality of high-grade glass; the kind you don't find in the ordinary cheap glass dish. They are clear as crystal. The design is deeply cut and the quality heavy. In fact, you would almost think they were the genuine cut glass—worth many times the regular price—25 cents. These are one of the most convenient sizes we could possibly get, measuring 6½ inches across by nine inches in length. Just the right size for dozens of different things for table use. We have bought these purposely for this sale, and will sell them Saturday, from 5 till 9 p. m., if they last; choice, one to a customer, for ten cents each.
